The 2021 edition of *AHA Hospital Statistics* is published by Health Forum, an affiliate of the American Hospital Association, Rick Pollack, President and CEO.

Advisements

The data published here should be used with the following advisements: The data are based on replies to an annual survey that seeks a variety of information, not all of which is published in this book. The information gathered by the survey includes specific services, but not all of each hospital's services. Therefore, the data do not reflect an exhaustive list of all services offered by all hospitals. For information on the availability of additional data, please contact Health Forum, (800) 821-2039.

Health Forum does not assume responsibility for the accuracy of information voluntarily reported by the individual institutions surveyed. The purpose of this publication is to provide basic data reflecting the delivery of health care in the United States and associated areas, and is not to serve an official and all-inclusive list of services offered by individual hospitals.

The Impacts of the COVID-19 Pandemic on Hospitals, Health Systems and the Communities They Serve

Hospital Statistics Introduction Chapter

Each year, the American Hospital Association (AHA) releases “AHA Hospital Statistics.” These data are widely used by health field observers, researchers and policymakers to help understand trends and key facts about America’s hospitals and health systems and the care they provide to patients and communities. The data in this edition include key statistics for the years 2015 to 2019, and therefore do not reflect any impacts from the COVID-19 pandemic in 2020 and thereafter.

The pandemic has resulted in historic challenges for hospitals and health systems and the communities they serve. These challenges vary widely among hospitals, health systems and communities. Although the AHA Annual Survey data does not yet illustrate these effects, there have been a number of studies and datasets that have begun to measure the impact of COVID-19 on hospitals, patients and communities.

Data compiled by the Center for Systems Science and Engineering (CSSE) at Johns Hopkins University show that as of the beginning of January 2021, there were over 20 million confirmed COVID-19 cases and over 350,000 reported deaths from COVID-19 in the United States alone.¹ The U.S. Department of Health & Human Services (HHS) also began releasing national, state and hospital level data on COVID-19 trends in December 2020. According to the HHS Protect Public Data Hub, which draws from hospital and state reporting, in many states most or all intensive care unit beds were being utilized, largely to treat patients with COVID-19, by January 2021.² Hospitals have never before experienced such a widespread, national health crisis.

The surging number of cases and hospitalization rates have directly impacted the U.S. health care system and its ability to continue to provide access to care. The pandemic has put severe financial pressure on hospitals, including, but not limited to: the astronomical costs of preparing for a surge of COVID-19 patients; added expenses due to supply chain and labor market disruptions; months of essential hospital revenue being erased due to the combination of a forced shutdown and slowdown of regular operations for non-emergent care; and the high cost of treating COVID-19 cases, which tend to be incredibly resource intensive.

In a pair of reports released in May and June of 2020, the AHA projected that hospital and health system financial losses would amount to at least \$323.1 billion through the end of 2020. Importantly, those analyses did not account for the subsequent surges of the pandemic that manifested later in the year. The AHA’s estimates also did not include all expenses, such as increased acquisition costs for drugs, increased labor costs and costs associated with acquiring non-personal protective equipment (PPE) supplies and equipment.³ Losses on that scale have seriously threatened hospitals’ and health systems’ financial sustainability. In fact, a July 2020 report from Kaufman Hall projected that more than half of all hospitals would have negative margins during the fourth quarter

³ AHA. Hospitals and Health Systems Continue to Face Unprecedented Financial Challenges due to COVID-19. June 2020. <https://www.aha.org/press-releases/2020-06-30-new-aha-report-losses-deepen-hospitals-health-systems>

of 2020.⁴ Even the \$175 billion in provider relief funds provided by the Coronavirus Aid, Relief, and Economic Security (CARES) Act falls far short of covering these losses.⁵

These projected losses were driven largely by sustained lower hospital volume. In December 2020, Kaufman Hall reported in its monthly National Hospital Flash Report that compared to the prior year, total hospital discharges in 2020 had dropped 5.1%; adjusted discharges, a blend of inpatient and outpatient utilization, had dropped 10.6%; and emergency department visits had dropped 16.3%. Meanwhile, the high intensity of care required for those hospitalized with COVID-19 drove an increase in the average length of stay of 8.7%.⁶ According to data from the Centers for Medicare & Medicaid Services (CMS) in its Preliminary Medicare COVID-19 Data Snapshot, more than half of COVID-19 hospitalizations of Medicare beneficiaries were 8 days or longer, and 20% were 16 days or longer. Those hospitalized with COVID-19 were also more likely to have existing chronic conditions, making their treatment that much more complex. CMS examined the prevalence of chronic conditions among COVID-19 hospitalized Medicare fee-for-service beneficiaries and found that 80% had hypertension, 62% had hyperlipidemia, 51% had chronic kidney disease, and half had diabetes.⁷

The long-term impacts of the COVID-19 pandemic on hospitals, health systems and the communities they serve are difficult to project, but it is already clear they will be severe and, in many cases, catastrophic. In 2020, almost 50 hospitals had already closed or entered bankruptcy through October.⁸ These challenges are of particular concern in rural communities, where many hospitals are already under tremendous financial stress. Rural hospitals face a variety of unique circumstances: low patient volume; challenging payer mix; geographic isolation; limited access to essential services; aging infrastructure and access to capital; workforce shortages; and health care coverage inadequacies, among other challenges.⁹ Since 2010, over 130 rural hospitals have closed according to the Cecil G. Sheps Center for Health Services Research at the University of North Carolina.¹⁰

The historical data contained in this edition of Hospital Statistics will be critical in establishing a baseline to measure the full impact of the COVID-19 pandemic in 2020 and beyond, and to demonstrate the importance of hospitals and health systems for the communities they serve. In 2019, America's hospitals and health systems treated 143 million people in emergency departments, provided 642 million outpatient visits, performed over 28 million surgeries and delivered over 3.5 million babies. Hospitals and health systems also play important roles in their communities beyond that of health care providers – they are often economic anchors that create jobs and purchase goods and services from others in their community. For example, in 2019

hospitals: employed more than 6 million individuals in full- or part- time positions; purchased more than \$1 trillion in goods and services from other businesses; supported almost 18 million, or one out of nine, jobs; and supported roughly \$2.30 of additional business activity in the economy for every dollar they spent.¹¹

As additional data examining the impacts of the COVID-19 pandemic become available in 2021 and the years ahead, those impacts will already be felt by hospital front-line staff and the people in the communities served by our nation's hospitals and health systems.

¹¹ AHA. 2019 Annual Survey of Hospitals.

For more than seven decades, *AHA Hospital Statistics™* has reported aggregate hospital data derived from the AHA Annual Survey and is the definitive source when doing trend analysis with data by bed size category, U.S. Census Divisions, States, and Metropolitan Areas. As the health care delivery system changes, so have the data tracked by the survey and presented in this report. Recent additions include:

- **Community health indicators** that offer readers a connection to the community for their analysis and planning: the data are broken down into beds, admissions, inpatient days, ER outpatient visits, and other indicators per 1000 population, as well as expense per capita.
- **Utilization, personnel and finance** by all CBSAs in the United States.
- **Five-year trend data** on insurance products, and managed care contracts enable you to identify changes in relationships between hospitals and other health care systems and providers.
- **Tables 3 through 6 have been organized** to show breakdowns between inpatient and outpatient care to better reflect market shifts toward outpatient-centered care. Additional clarity is gained by the breakdown between total facility data (which includes nursing home type units under the control of the hospital) and hospital units (which exclude the nursing home data).

TABLE 6 Sample State

*U.S. Community Hospitals
(Nonfederal, short-term general and other special hospitals)*

Overview 2015–2019

	2019	2018	2017	2016	2015
Physician Models					
Independent Practice Association	14	17	17	17	14
Group Practice without Walls	4	5	5	8	4
Open Physician-Hospital Organization	20	21	24	23	18
Closed Physician-Hospital Organization	21	17	18	17	11
Management Service Organization	14	18	20	14	9
Integrated Salary Model	35	29	30	26	24
Equity Model	4	3	4	6	3
Foundation	9	8	23	21	19

Example of five-year trend data

- **Facilities and Services information** on more than 100 categories of hospital facilities and services in Table 7. At a glance, you can determine the number and percentage of hospitals offering a specific service such as Oncology, Palliative Care Program, Complementary Medicine, Women's Health Services and Tobacco Cessation.
- **Plus, System and Group Purchasing Organizations** that demonstrate ways in which organizations are linked.

The survey instrument and the glossary

A good place to begin your analysis is the AHA Annual Survey instrument. Found on page 217, it includes the instructions, questions, and terms that were used to gather the data for fiscal year 2019. This can be extremely valuable for a clearer understanding of the data we collect and the tables presented in *AHA Hospital Statistics*.

Please also review the glossary in the back of the book. The glossary contains complete definitions for specific terms used in the tables and text of *AHA Hospital Statistics*. These definitions will clarify how terminology is being used.

As mentioned above, it is important to note that the primary focus of the most detailed data contained in *AHA Hospital Statistics* is community hospitals. As defined, community hospitals are all non-federal, short-term general and special hospitals whose facilities and services are available to the public. If the majority of a hospital's patients are admitted to units where the average length of stay is 30 days or less, a hospital may still be classified as short-term even if it includes a nursing-home-type unit. (For a more complete definition of community hospitals, please see the glossary definition, located on page 203.)

Getting the most out of *AHA Hospital Statistics*

This section of the book provides an introduction for getting the most out of your *AHA Hospital Statistics* 2021 edition. Here, you'll find a guide to the book, with insights into each table.

Equity model: An arrangement that allows established practitioners to become shareholders in a professional corporation in exchange for tangible and intangible assets of their existing practices.

Expenses: Includes all expenses for the reporting period including payroll, non-payroll, and all nonoperating expenses. *Payroll expenses* include all salaries and wages. *Non-payroll expenses* are all professional fees and those salary expenditures excluded from payroll. *Labor related expenses* are defined as payroll expenses plus employee benefits. *Non-labor related expenses* are all other non-payroll expenses. *Bad debt* has been reclassified from a "reduction in revenue" to an expense in accordance with the revised AICPA Audit Guide. However, for purposes of historical consistency, the expense total that appears throughout *AHA Hospital Statistics* does not include "bad debt" as an expense item. Note: Financial data may not add due to rounding.

Extracorporeal shock wave lithotripter (ESWL): A medical device used for treating stones in the kidney or urethra. The device disintegrates kidney stones noninvasively through the transmission of acoustic shock waves directed at the stones.

Fitness center: Provides exercise, testing, or evaluation programs and fitness activities to the community and hospital employees.

Example of Glossary definitions.

Example of Table 1

Table 1 — Historical Trends in Utilization, Personnel and Finances for Selected Years from 1946 through 2019

Table 1 at a Glance

This table is used to evaluate historical data and allows you to examine long-term trends in health care with data dating back more than sixty years. Table 1 reports on all hospitals in the United States. One important note: Hospitals included in this table include AHA-member and non-member hospitals. A hospital does not need to be an AHA member to be included.

This table segments the data into various organizational structure categories. Here's a brief look at these different classifications:

- Total United States Hospitals
- Total Non-Federal Short-term and other special hospitals
- Community hospitals
- Non-government not-for-profit community hospitals
- Investor-owned (for-profit) community hospitals
- State and local government community hospitals

Table 1 also provides input on nationwide utilization, personnel and finance trends. You'll find answers to questions such as: *Over the past 25 years, what trends do I see comparing the average length of stay at government and non-government not-for-profit community hospitals and investor-owned for-profit community hospitals? or What has been the trend in outpatient visits?*

Table 2 — 2019 U.S. Hospitals: Utilization, Personnel and Finances

Table 2 at a Glance

This table takes a closer look at U.S. Hospitals for 2019. It offers a snapshot of utilization, personnel and finance statistics, and breaks down this information for specialty hospitals. In addition, this is the only table that outlines data on federal hospitals. You'll be able to use this table to better understand the number of beds set-up and staffed, how many personnel and trainees are on the payroll, and what the financial implications of these may be.

TABLE 3

Total U.S.

Example of Table 3. Helps contrast acute and long-term care

Table 3 — Total United States
Table 3 at a Glance

This table provides a look at all U.S. Community Hospitals, in terms of general overview with utilization by inpatient and outpatient, personnel, revenue, expenses and community health indicators. It provides a snapshot of the past five years, allowing you to track emerging trends.

This national information can be compared to local or regional trends, for benchmarking:

- Both inpatient and outpatient information is included, for better evaluation of data.
- Reporting by total facility *Includes hospital and Nursing Home Units* and hospital unit only *Excludes Separate Nursing Home Units* helps contrast acute and long-term care.
- Community health indicators can help uncover trends and help determine future facility needs.

Example of Table 4. Compares facilities with peers.

Table 4 — Bed Size Categories

Table 4 at a Glance

This table provides a look at all U.S. Community Hospitals, broken down by bed size. The table includes general overview, utilization, personnel, and revenue and expense information. These categories of bed sizes were developed by the AHA, and have become an industry standard. By categorizing each facility into a peer group, this table provides a snapshot of the past five years allowing you to compare facilities with their peers.

Example of Table 5. Uncovers trends to determine future facility needs.

Table 5 — U.S. Census Divisions**Table 5 at a Glance**

This table provides a look at all U.S. Community Hospitals, broken down by Census Division. The table includes general overview, utilization, personnel, and expenses, and community health indicator information. It provides a snapshot of the past five years, allowing you to track trends on a regional level. In addition, this allows you to compare this data to other population based health indicators, offering a more comprehensive look than the survey data alone. Community health indicators can help uncover trends and help determine future facility needs.

Table 6 — States**Table 6 at a Glance**

This table provides a look at all U.S. Community Hospitals, broken down by State. The table includes general overview, utilization, personnel, revenue and expenses, and community health indicator information. It provides a snapshot of the past five years, allowing you to track trends on a state level.

Note:

You can use the information in tables 3, 4, 5 and 6 to make accurate comparisons across Total U.S., Bed Size Category, Census Division and State.

Table 7 — 2019 Facilities and Services in the U.S. Census Divisions and States

Table 7 at a Glance

This table examines facilities and services by both Census Division and State. A comprehensive alphabetical guide helps make each facility or service easy to find. This table will allow you to better understand what service lines are emerging and how many facilities offer a particular service in a discrete state or region.

This collection of facilities and services information data is unique to *AHA Hospital Statistics* and the list is continually growing. Recent additions include:

- Air ambulance services
- Diabetes prevention program
- Off-campus emergency department
- Employment support services
- Supportive housing services
- Other remote patient monitoring
- Other telehealth

Example of Table 7.

These new categories reflect the trends as hospitals expand their service lines to mirror the needs of their patients. For example, services such as acupuncture or massage therapy are now accounted for in the Complementary Medicine service item.

This table can answer questions such as: *What percentage of hospitals in the United States offer complementary medicine or wound management? or How are these new services distributed by state?*

Table 8 — Utilization, Personnel and Finances in Community Hospitals by Metropolitan Area for 2019

Table 8 at a Glance

This table provides a look at all U.S. Community Hospitals, broken down by Metropolitan Area. The table includes general overview, utilization, personnel, and finance information. It provides a snapshot of the past year.

Additional Resources

Again, in the back of the book you will find the comprehensive glossary and the 2019 annual survey questionnaire. The survey itself can be a valuable resource to understanding what was asked in order to gather the data in the book. This survey is also used to produce the *AHA Guide*® and AHA Annual Survey Database™.

Hospital Requirements

Hospital Requirements

An institution is considered a hospital by the American Hospital Association if it is licensed as general or specialty hospital by the appropriate state agency, and accredited as a hospital by one of the following organizations: The Joint Commission; Healthcare Facilities Accreditation Program (HFAP); DNV Healthcare accreditation; Center for Improvement in Healthcare Quality accreditation; or Medicare certified as a provider of acute service under Title 18 of the Social Security Act.

Types of Hospitals

Hospitals are categorized as one of four types of hospitals: general, special, rehabilitation and chronic disease, or psychiatric.

General

The primary function of the institution is to provide patient services, diagnostic and therapeutic, for a variety of medical conditions. A general hospital also shall provide:

- diagnostic x-ray services with facilities and staff for a variety of procedures
- clinical laboratory service with facilities and staff for a variety of procedures and with anatomical pathology services regularly and conveniently available
- operating room service with facilities and staff.

Special

The primary function of the institution is to provide diagnostic and treatment services for patients who have specified medical conditions, both surgical and nonsurgical. A special hospital also shall provide:

- such diagnostic and treatment services as may be determined by the Executive Committee of the Board of Trustees of the American Hospital Association to be appropriate for the specified medical conditions for which medical services are provided shall be maintained in the institution with suitable facilities and staff. If such conditions do not normally require diagnostic x-ray service, laboratory service, or operating room service, and if any such services are therefore not maintained in the institution, there shall be written arrangements to make them available to patients requiring them.
- clinical laboratory services capable of providing tissue diagnosis when offering pregnancy termination services.

Rehabilitation and Chronic Disease

The primary function of the institution is to provide diagnostic and treatment services to handicapped or disabled individuals requiring restorative and adjustive services. A rehabilitation and chronic disease hospital also shall provide:

- arrangements for diagnostic x-ray services, as required, on a regular and conveniently available basis
- arrangements for clinical laboratory service, as required on a regular and conveniently available basis
- arrangements for operating room service, as required, on a regular and conveniently available basis
- a physical therapy service with suitable facilities and staff in the institution
- an occupational therapy service with suitable facilities and staff in the institution
- arrangements for psychological and social work services on a regular and conveniently available basis

-
- arrangements for educational and vocational services on a regular and conveniently available basis
 - written arrangements with a general hospital for the transfer of patients who require medical, obstetrical, or surgical services not available in the institution.

Psychiatric

The primary function of the institution is to provide diagnostic and treatment services for patients who have psychiatric-related illnesses. A psychiatric hospital also shall provide:

- arrangements for clinical laboratory service, as required, on a regular and conveniently available basis
- arrangements for diagnostic x-ray services, as required on a regular and conveniently available basis
- psychiatric, psychological, and social work service with facilities and staff in the institution
- arrangements for electroencephalograph services, as required, on a regular and conveniently available basis.
- written arrangements with a general hospital for the transfer of patients who require medical, obstetrical, or surgical services not available in the institution.

Data Comparability

The economic climate, demographic characteristics, personnel issues, and health care financing and payment policies differ by region, state, and city across the country. *Differences in these factors must be taken into account when using the data.* In addition, the profiles of hospitals across comparison groups vary. For example, states will differ in terms of the number and percentage of hospitals by size, ownership, services provided, types of patients treated, and so forth. *Differences in these variables also must be taken into consideration when doing a comparative analysis.*

The 2021 edition of *AHA Hospital Statistics*TM draws its data from the 2019 AHA Annual Survey of Hospitals. It is the statistical complement to the 2021 edition of the *AHA Guide*[®], which contains selected data about individual hospitals.

The AHA Survey was mailed to all hospitals, in the U.S. and its associated areas: American Samoa, Guam, the Marshall Islands, Puerto Rico, and the Virgin Islands. U.S. government hospitals located outside the U.S. were not included. Overall, the average response rate over the past five years has been approximately 83 percent.

Reporting Period

In completing the survey, hospitals were requested to report data for a full year, in accord with their fiscal year, ending in 2019. The statistical table present data reported or estimated for a 12-month period, except for data on personnel, which represent situations as they existed at the end of the reporting period.

Respondents

Data for Tables 1 and 2 include 6,090 hospitals in the U.S. Data on community hospitals (nonfederal, short-term general and other special hospitals) only are presented in Tables 3-6, and Table 8.

It is important to note that the hospitals included in *AHA Hospital Statistics* are not necessarily identical to those included in *AHA Guide*.

The institutions listed in the 2021 edition of *AHA Guide* include all of those institutions CMS certified, or Joint Commission accredited as of September 2020. Tables 1-6 in *AHA Hospital Statistics* present data for hospitals that were in operation during the 12-month reporting period ending 2019.

Estimates

Estimates were made of data for nonreporting hospitals and for reporting hospitals that submitted incomplete AHA Annual Survey questionnaires. Estimates were not made for beds, bassinets and facilities and services. Data for beds and bassinets of nonreporting hospitals were based on the most recent information from those hospitals. (Note that in all statistical tables, whenever bed-size categories are listed, all eight categories appear, whether or not there are hospitals in every category.)

Missing revenue, expenses, admissions, births, inpatient days, surgical operations, outpatient visits, and full-time-equivalent personnel values are estimates from regression models. For all other variables the estimates were based on ratios such as per bed averages derived from data reported by hospitals similar in size, control, major service provided, length of stay, and geographical characteristics to the hospitals that did not report this information.

Tables 1-2

Table		Page
	Utilization, Personnel, and Finances	
1	Trends for Selected Years from 1946 through 2019	2
	U.S. Hospitals	
2	Utilization, Personnel, and Finances for 2019	8

Note: These data represent hospital performance in the years 2015 – 2019 and do not reflect any impacts from the COVID-19 pandemic in 2020 and thereafter.

Historical Trends in Utilization, Personnel, and Finances for Selected Years from 1946 through 2019

Data are for all hospitals in the United States. Data are estimated for nonreporting hospitals with the exception of newborn and outpatient data before 1972. Personnel data exclude residents, interns, and students from 1952 on; personnel data include full-time equivalents for part-time personnel from 1954 on. As a result of the AHA Annual Survey validation process, the New York state expense data from 1976 were revised after the 1977 edition was published. The revised figures are included below. In order to provide trend data on a consistent basis, the 1970 and 1971 psychiatric and long-term data have been slightly modified. The 1982 FTE figures have updated to provide the most accurate data possible.

CLASSIFICATION	YEAR	HOSPITALS	BEDS (in thousands)	ADMISSIONS (in thousands)	AVERAGE DAILY CENSUS (in thousands)	ADJUSTED AVERAGE DAILY CENSUS (in thousands)	AVERAGE STAY (days)	OUTPATIENT VISITS (in thousands)	NEWBORNS		FTE PERSONNEL		TOTAL EXPENSES

*Calculating the total margin using an aggregate average for all U.S. hospitals based on total revenue and expenses can be misleading and should be avoided. Individual hospital margins vary widely and are driven by a range of factors, including facility or system size and type; local payer mix; geographic location; patient demographics; services provided, both clinical and non-medical; and relationships and affiliations with other entities in the community.

Note: These data represent hospital performance in the years 2015 – 2019 and do not reflect any impacts from the COVID-19 pandemic in 2020 and thereafter.

Facilities and Services in the U. S. Census
Divisions and States for 2019

155

The facilities and services presented in Table 7 are listed below in alphabetical order by major heading (where applicable).

Adult Day Care Program	155	HIV/AIDS Services	159
Air Ambulance Services	155	Home Health Services	159
Airborne Infection Isolation Room.....	155	Hospice	159
Alcohol/Drug Abuse or Dependency		Hospital-based Outpatient Care	
Inpatient Care Units.....	155	Center Services	159
Alcohol/Drug Abuse or Dependency		Immunization Program	159
Outpatient Services	155	Indigent Care Clinic.....	159
Alcoholism-chemical dependency		Linguistic/Translation Services	159
pediatric services.....	155	Meal Delivery Services.....	159
Alcoholism-chemical dependency partial		Mobile Health Services.....	159
hospitalization services	155	Neonatal Intermediate Care Units	159
Alzheimer Center.....	155	Neurological Services	160
Ambulance Service	155	Nutrition Programs Center.....	160
Ambulatory Surgery Center.....	155	Obstetrics Inpatient Care Units.....	160
Arthritis Treatment Center	155	Occupational Health Services.....	160
Auxiliary	156	Oncology Services	160
Bariatric/Weight Control Services	156	Orthopedic Services	160
Birthing/LDR/LDRP Room.....	156	Other Special Care Units	160
Blood Donor Center.....	156	Outpatient Surgery	160
Breast Cancer Screening.....	156	Pain Management Program.....	160
Burn Care Units	156	Palliative Care Program	160
Case Management.....	156	Palliative Care Inpatient Unit	161
Chaplaincy/Pastoral Care Services	156	Patient Controlled Analgesia (PCA).....	161
Chemotherapy	156	Patient Education Center	161
Children's Wellness Program.....	157	Patient Representative Services	161
Chiropractic Services.....	157	Physical Rehabilitation Inpatient Care Units	161
Community Outreach.....	157	Primary Care Department	161
Complementary and Alternative Medicine		Psychiatric Inpatient Care Units	161
Services	157	Psychiatric Intensive Outpatient Services.....	161
Computer Assisted Orthopedic Surgery (CAOS).....	157	Robotic Surgery	161
Crisis Prevention.....	157	Rural Health Clinic.....	162
Diabetes Prevention Program	157	Sleep Center.....	162
Dental Services	157	Social Work Services	162
Employment Support Services	157	Sports Medicine	162
Enabling Services	157	Support Groups	162
Enrollment Assistance Services.....	157	Swing Bed Services	162
Extracorporeal Shock Wave Lithotripter (ESWL).....	157	Teen Outreach Services	162
Fertility Clinic.....	158	Telehealth.....	162
Fitness Center	158	Tobacco Treatment/Cessation Program	162
Freestanding Outpatient Care Center	158	Transportation to Health Facilities	162
Genetic Testing/Counseling	158	Urgent Care Center	163
Geriatric Services.....	158	Violence Prevention Program-Community.....	163
Health Fair	158	Violence Prevention Program-Workplace.....	163
Community Health Education	158	Virtual Colonoscopy	163
Health Research	158	Volunteer Services Department	163
Health Screenings	158	Women's Health Services	163
Hemodialysis.....	158	Wound Management Services	163

Note: These data represent hospital performance in the years 2015 – 2019 and do not reflect any impacts from the COVID-19 pandemic in 2020 and thereafter.

General Medical Surgical Care

Adult Units	164
Pediatric Units.....	164

Housing Services

Assisted Living.....	164
Retirement Housing	164
Supportive Housing Services.....	164

Intensive Care Units

Cardiac	164
Medical Surgical	164
Neonatal	164
Other	164
Pediatric	164

Long-Term Care

Acute Care.....	164
Skilled Nursing Care.....	164
Intermediate Care.....	164
Other Long-Term Care.....	164

Cardiology and Cardiac Services

Adult Cardiology Services	165
Pediatric Cardiology Services.....	165
Adult Diagnostic Catheterization.....	165
Pediatric Diagnostic Catheterization	165
Adult Interventional Cardiac Catheterization	165
Pediatric Interventional Cardiac Catheterization...	165
Adult Cardiac Surgery	165
Pediatric Cardiac Surgery	165
Adult Cardiac Electrophysiology.....	165
Pediatric Cardiac Electrophysiology	165
Cardiac Rehabilitation	165

Emergency Services

Off-Campus Emergency Department	166
On-Campus Emergency Department.....	166
Pediatric Emergency Department	166
Trauma Center (Certified).....	166

Endoscopic Services

Endoscopic Ultrasound.....	166
Ablation of Barrett's Esophagus	166
Esophageal Impedance Study	166
Endoscopic Retrograde Cholangiopancreatography	166
Optical Colonoscopy.....	166

Physical Rehabilitation Services

Assistive Technology Center.....	167
Electrodiagnostic Services.....	167
Physical Rehabilitation Outpatient Services.....	167

Prosthetic Orthotic Services	167
Robot Assisted Walking Therapy.....	167
Simulated Rehabilitation Environment.....	167

Psychiatric Services

Pediatric Care (formerly "Child Adolescent Services")	167
Consultation/Liaison Services	167
Education Services.....	167
Emergency Services.....	167
Geriatric Services.....	168
Outpatient Services	168
Partial Hospitalization Program.....	168
Residential Treatment	168

Radiology, Diagnostic

CT Scanner	168
Diagnostic Radioisotope Facility.....	168
Electron Beam Computed Tomography (EBCT).....	168
Full-Field Digital Mammography (FFDM).....	168
Magnetic Resonance Imaging (MRI)	168
Intraoperative Magnetic Imagingng.....	168
Magnetoencephalography	169
Multi-slice Spiral Computed Tomography (<64 slice CT).....	169
Multi-slice Spiral Computed Tomography ($64+$ slice CT).....	169
Positron Emission Tomography (PET).....	169
Positron Emission Tomography/CT (PET/CT).....	169
Single Photon Emission Computerized Tomography (SPECT)	169
Ultrasound.....	169

Radiology, Therapeutic

Image Guided Radiation Therapy (IGRT).....	169
Intensity-Modulated Radiation Therapy (IMRT).....	169
Proton Beam Therapy	169
Shaped Beam Radiation System.....	170
Stereotactic Radiosurgery	170

Transplant Services

Bone Marrow	170
Heart.....	170
Kidney.....	170
Liver	170
Lung	170
Tissue	170
Other	170

Note: These data represent hospital performance in the years 2015 – 2019 and do not reflect any impacts from the COVID-19 pandemic in 2020 and thereafter.

Table

2019 Facilities and Services in the U.S. Census Divisions and States

These data include only hospital-based facilities and services as reported by responding hospitals in Section C of the 2019 AHA Annual Survey, beginning on page 215. Census divisions represent all U.S. hospitals. Community hospitals are listed separately under United States. No estimates have been made for nonresponding hospitals. Definitions of facilities and services are listed in the Glossary, page 203.

Note: These data represent hospital performance in the years 2015 – 2019 and do not reflect any impacts from the COVID-19 pandemic in 2020 and thereafter.

Table 7 (Continued)

These data include only hospital-based facilities and services as reported by responding hospitals in Section C of the 2019 AHA Annual Survey, beginning on page 215. Census divisions represent all U.S. hospitals. Community hospitals are listed separately under United States. No estimates have been made for nonresponding hospitals. Definitions of facilities and services are listed in the Glossary, page 203.

facilities and services are listed in the Glossary, page 203.

Note: These data represent hospital performance in the years 2015 – 2019 and do not reflect any impacts from the COVID-19 pandemic in 2020 and thereafter.

Table 7 (Continued)

These data include only hospital-based facilities and services as reported by responding hospitals in Section C of the 2019 AHA Annual Survey, beginning on page 215. Census divisions represent all U.S. hospitals. Community hospitals are listed separately under United States. No estimates have been made for nonresponding hospitals. Definitions of facilities and services are listed in the Glossary, page 203.

Note: These data represent hospital performance in the years 2015 – 2019 and do not reflect any impacts from the COVID-19 pandemic in 2020 and thereafter.

Table 7 (Continued)

These data include only hospital-based facilities and services as reported by responding hospitals in Section C of the 2019 AHA Annual Survey, beginning on page 215. Census divisions represent all U.S. hospitals. Community hospitals are listed separately under United States. No estimates have been made for nonresponding hospitals. Definitions of facilities and services are listed in the Glossary, page 203.

Note: These data represent hospital performance in the years 2015 – 2019 and do not reflect any impacts from the COVID-19 pandemic in 2020 and thereafter.

Table 7 (Continued)

These data include only hospital-based facilities and services as reported by responding hospitals in Section C of the 2019 AHA Annual Survey, beginning on page 215. Census divisions represent all U.S. hospitals. Community hospitals are listed separately under United States. No estimates have been made for nonresponding hospitals. Definitions of facilities and services are listed in the Glossary, page 203.

Note: These data represent hospital performance in the years 2015 – 2019 and do not reflect any impacts from the COVID-19 pandemic in 2020 and thereafter.

Table 7 (Continued)

These data include only hospital-based facilities and services as reported by responding hospitals in Section C of the 2019 AHA Annual Survey, beginning on page 215. Census divisions represent all U.S. hospitals. Community hospitals are listed separately under United States. No estimates have been made for nonresponding hospitals. Definitions of facilities and services are listed in the Glossary, page 203.

Note: These data represent hospital performance in the years 2015 – 2019 and do not reflect any impacts from the COVID-19 pandemic in 2020 and thereafter.

Table 7 (Continued)

These data include only hospital-based facilities and services as reported by responding hospitals in Section C of the 2019 AHA Annual Survey, beginning on page 215. Census divisions represent all U.S. hospitals. Community hospitals are listed separately under United States. No estimates have been made for nonresponding hospitals. Definitions of facilities and services are listed in the Glossary, page 203.

Table 7 (Continued)

These data include only hospital-based facilities and services as reported by responding hospitals in Section C of the 2019 AHA Annual Survey, beginning on page 215. Census divisions represent all U.S. hospitals. Community hospitals are listed separately under United States. No estimates have been made for nonresponding hospitals. Definitions of facilities and services are listed in the Glossary, page 203.

Note: These data represent hospital performance in the years 2015 – 2019 and do not reflect any impacts from the COVID-19 pandemic in 2020 and thereafter.

Table 7 (Continued)

These data include only hospital-based facilities and services as reported by responding hospitals in Section C of the 2019 AHA Annual Survey, beginning on page 215. Census divisions represent all U.S. hospitals. Community hospitals are listed separately under United States. No estimates have been made for nonresponding hospitals. Definitions of facilities and services are listed in the Glossary, page 203.

CLASSIFICATION	HOSPITALS REPORTING	RADIOLOGY, DIAGNOSTIC										RADIOLOGY, THERAPEUTIC									
		MAGNETO-ENCEPHALOGRAPHY		MULTISLICE SPIRAL COMPUTED TOMOGRAPHY (<64 SLICE CT)		MULTISLICE SPIRAL COMPUTED TOMOGRAPHY (64+ SLICE CT)		POSITRON EMISSION TOMOGRAPHY (PET)		POSITRON EMISSION TOMOGRAPHY/CT (PET/CT)		SINGLE PHOTON COMPUTORIZED TOMOGRAPHY (SPECT)		ULTRASOUND		IMAGE-GUIDED RADIATION THERAPY (IGRT)		INTENSITY-MODULATED RADIATION THERAPY (IMRT)		PROTON BEAM THERAPY

Note: These data represent hospital performance in the years 2015 – 2019 and do not reflect any impacts from the COVID-19 pandemic in 2020 and thereafter.

Table 7 (Continued)

These data include only hospital-based facilities and services as reported by responding hospitals in Section C of the 2019 AHA Annual Survey, beginning on page 215. Census divisions represent all U.S. hospitals. Community hospitals are listed separately under United States. No estimates have been made for nonresponding hospitals. Definitions of facilities and services are listed in the Glossary, page 203.

Core-Based Statistical Areas

A core-based statistical area is a U.S. geographic area defined by the Office of Management and Budget (OMB) that consists of one or more counties (or equivalents) anchored by an urban center of at least 10,000 people plus adjacent counties that are socioeconomically tied to the urban center by commuting. Areas defined on the basis of these standards applied to Census 2000 data were announced by OMB in June 2003.

When a CBSA encompasses two or more central cities, up to three cities may be specified in the CBSA title. They will be listed in order of population size. When a single central city exists, the CBSA is named for that particular city. A CBSA may extend beyond a single state.

A CBSA containing a single core with a population of 2.5 million or more may be subdivided to form smaller groupings of counties referred to as Metropolitan Divisions. Where they exist, Metropolitan Divisions are shown in this table rather than the entire CBSA.

Note: These data represent hospital performance in the years 2015 – 2019 and do not reflect any impacts from the COVID-19 pandemic in 2020 and thereafter.

Statistics for Health Care Systems and their Hospitals

The following tables describing health care systems refers to information in section B of the 2021 *AHA Guide*. Table 1 shows the number of health care systems by type of control. Table 2 provides a breakdown of the number of systems that own, lease, sponsor

or contract manage hospitals within each control category. Table 3 gives the number of hospitals and beds in each control category as well as total hospitals and beds. Finally, Table 4 shows the percentage of hospitals and beds in each control category.

For more information on health care systems, please write to the Section for Health Care Systems, 155 N. Wacker Drive, Chicago, Illinois 60606 or call 312/422-3000.

Table 1. Multihospital Health Care Systems, by Type of Organization Control

Type of Control	Code	Number of Systems
Catholic (Roman) church-related	CC	26
Other church-related	CO	7
Subtotal, church-related		33
Other not-for-profit	NP	310
Subtotal, not-for-profit		343
Investor Owned	IO	80
Federal Government	FG	5
Total		428

Table 2. Multihospital Health Care Systems, by Type of Ownership and Control

Type of Ownership	Catholic Church-Related (CC)	Other Church-Related (CO)	Total Church-Related (CC + CO)	Other Not-for-Profit (NP)	Total Not-for-Profit (CC, CO, + NP)	Investor-Owned (IO)	Federal Government (FG)	All Systems
Systems that only own, lease or sponsor	18	6	24	185	209	17	4	230
Systems that only contract-manage	0	0	0	13	13	5	0	18
Systems that manage, own, lease, or sponsor	8	1	9	112	121	58	1	180
Total	26	7	33	310	343	80	5	428

Table 3. Hospitals and Beds in Multihospital Health Care Systems, by Type of Ownership and Control

H = hospitals; B = beds.

*Please note that figures may not always equal the provided subtotal or total percentages due to rounding.

Note: These data represent hospital performance in the years 2015 – 2019 and do not reflect any impacts from the COVID-19 pandemic in 2020 and thereafter.

This glossary explains specific terms as they are used in the tables and text of AHA Hospital Statistics

Ablation of Barrett's esophagus: Premalignant condition that can lead to adenocarcinoma of the esophagus. The non surgical ablation of the premalignant tissue in Barrett's esophagus by the application of thermal energy or light through an endoscope passed from the mouth into the esophagus.

Acute long term care: Provider specialized acute hospital care to medically complex patients who are critically ill, have multisystem complications and/or failure, and require hospitalization averaging 25 days, in a facility offering specialized treatment programs and therapeutic intervention on a 24 hour/7day a week basis.

Adjusted admission: An aggregate measure of workload reflecting the sum of admissions and equivalent admissions attributed to outpatient services. The number of equivalent admissions attributed to outpatient services is derived by multiplying admissions by the ratio of outpatient revenue to inpatient revenue.

$$\text{Adjusted admissions} = \text{admissions} + \left[\text{admissions} * \left(\frac{\text{outpatient revenue}}{\text{inpatient revenue}} \right) \right]$$

Adjusted average daily census: An estimate of the average number of patients (both inpatients and outpatients) receiving care each day during the reporting period, which is usually 12 months. The figure is derived by dividing the number of inpatient day equivalents (also called adjusted inpatient days) by the number of days in the reporting period.

Adjusted inpatient days: An aggregate measure of workload reflecting the sum of inpatient days and equivalent patient days attributed to outpatient services. The number of equivalent patient days attributed to outpatient services is derived by multiplying inpatient days by the ratio of outpatient revenue to inpatient revenue.

$$\text{Adjusted inpatient days} = \text{inpatient days} + \left[\text{inpatient days} * \left(\frac{\text{outpatient revenue}}{\text{inpatient revenue}} \right) \right]$$

Admissions: The number of patients, excluding newborns, accepted for inpatient service during the reporting period; the number includes patients who visit the emergency room and are later admitted for inpatient service.

Adult Cardiac Surgery: Includes minimally invasive procedures that include surgery done with only a small incision or no incision at all, such as through a laparoscope or an endoscope and more invasive major surgical procedures that include open chest and open heart surgery.

Adult Cardiology Services: An organized clinical service offering diagnostic and interventional procedures to manage the full range of adult heart conditions.

Adult day care program: Program providing supervision, medical and psychological care, and social activities for older adults who live at home or in another family setting, but cannot be alone or prefer to be with others during the day. May include intake assessment, health monitoring, occupational therapy, personal care, noon meal, and transportation services.

Adult Diagnostic/invasive catheterization: (also called coronary angiography or coronary arteriography) is used to assist in diagnosing complex heart conditions. Cardiac angiography involves the insertion of a tiny catheter into the artery in the groin then carefully threading the catheter up into the aorta where the coronary arteries originate. Once the catheter is in place, a dye is injected which allows the cardiologist to see the size, shape, and distribution of the coronary arteries. These images are used to diagnose heart disease and to determine, among other things, whether or not surgery is indicated.

Adult Interventional cardiac catheterization: Non surgical procedure that utilizes the same basic principles as diagnostic catheterization and then uses advanced techniques to improve the heart's function. It can be a less-invasive alternative to heart surgery.

Air ambulance services: Aircraft and especially a helicopter equipped for transporting the injured or sick. Most air ambulances carry critically ill or injured patients, whose condition could rapidly change for the worse.

Airborne infection isolation room: A single-occupancy room for patient care where environmental factors are controlled in an effort to minimize the transmission of those infectious agents, usually spread person to person by droplet nuclei associated with coughing and inhalation. Such rooms typically have specific ventilation requirements for controlled ventilation, air pressure and filtration.

Alcoholism-chemical dependency partial hospitalization services: Organized hospital services providing intensive day/evening outpatient services of three hour or more duration, distinguished from other outpatient visits of one hour.

Alcoholism-chemical dependency pediatric services: Provides diagnosis and therapeutic services to pediatric

patients with alcoholism or other drug dependencies. Includes care for inpatient/residential treatment for patients whose course of treatment involves more intensive care than provided in an outpatient setting or where patient requires supervised withdrawal.

Alcoholism-drug abuse or dependency inpatient care: Provides diagnosis and therapeutic services to patients with alcoholism or other drug dependencies. Includes care for inpatient/residential treatment for patients whose course of treatment involves more intensive care than provided in an outpatient setting or where patient requires supervised withdrawal.

Alcoholism-drug abuse or dependency outpatient services: Organized hospital services that provide medical care and/or rehabilitative treatment services to outpatients for whom the primary diagnosis is alcoholism or other chemical dependency.

Alzheimer Center: Facility that offers care to persons with Alzheimer's disease and their families through an integrated program of clinical services, research, and education.

Ambulance services: Provision of ambulance services to the ill and injured who require medical attention on a scheduled or unscheduled basis.

Ambulatory Surgery Center: Facility that provides care to patients requiring surgery who are admitted and discharged on the same day. Ambulatory surgery centers are distinct from same day surgical units within the hospital outpatient departments for purposes of Medicare payments.

Arthritis treatment center: Specifically equipped and staffed center for the diagnosis and treatment of arthritis and other joint disorders.

Assisted living: A special combination of housing, supportive services, personalized assistance and health care designed to respond to the individual needs of those who need help in activities of daily living and instrumental activities of daily living. Supportive services are available, 24 hours a day, to meet scheduled and unscheduled needs, in a way that promotes maximum independence and dignity for each resident and encourages the involvement of a resident's family, neighbor and friends.

Assistive Technology Center: A program providing access to specialized hardware and software with adaptations allowing individuals greater independence with mobility, dexterity, or increased communication options.

Auxiliary: A volunteer community organization formed to assist the hospital in carrying out its purpose and to serve as a link between the institution and the community.

Average daily census: The average number of people served on an inpatient basis on a single day during the reporting period; the figure is calculated by dividing the number of inpatient days by the number of days in the reporting period.

Bariatric/weight control services: Bariatrics is the medical practice of weight reduction.

Beds: Number of beds regularly maintained (set up and staffed for use) for inpatients as of the close of the reporting period. Excludes newborn bassinets.

Bed-size category: Hospitals are categorized by the number of beds set up and staffed for use at the end of the reporting period. The eight categories in Hospital Statistics are: 6 to 24 beds; 25 to 49; 50 to 99; 100 to 199; 200 to 299; 300 to 399; 400 to 499; and 500 or more.

Birthing room-LDR room-LDRP room: A single-room type of maternity care with a more homelike setting for families than the traditional three-room unit (labor/delivery/recovery) with a separate postpartum area. A birthing room combines labor and delivery in one room. An LDR room accommodates three stages in the birthing process—labor, delivery, and recovery. An LDRP room accommodates all four stages of the birth process—labor, delivery, recovery, and postpartum.

Births: Total number of infants born in the hospital during the reporting period. Births do not include infants transferred from other institutions, and are excluded from admission and discharge figures.

Blood Donor Center: A facility that performs, or is responsible for the collection, processing, testing or distribution of blood and components.

Bone marrow transplant: See definition for Transplant services on page 213.

Breast cancer screening/mammograms:

Mammography screening – The use of breast x-ray to detect unsuspected breast cancer in asymptomatic women. Diagnostic mammography – The x-ray imaging of breast tissue in symptomatic women who are considered to have a substantial likelihood of having breast cancer already.

Burn care: Provides care to severely burned patients. Severely burned patients are those with any of the following: (1) second-degree burns of more than 25% total body surface area for adults or 20% total body surface area for children; (2) third-degree burns of more than 10% total body surface area; (3) any severe burns of the hands, face, eyes, ears, or feet; or (4) all inhalation injuries, electrical burns, complicated burn injuries involving fractures and other major traumas, and all other poor risk factors.

Cardiac electrophysiology: Evaluation and management of patients with complex rhythm or conduction

abnormalities, including diagnostic testing, treatment of arrhythmias by catheter ablation or drug therapy, and pacemaker/defibrillator implantation and follow-up.

Cardiac intensive care: Provides patient care of a more specialized nature than the usual medical and surgical care, on the basis of physicians' orders and approved nursing care plans. The unit is staffed with specially trained nursing personnel and contains monitoring and specialized support or treatment equipment for patients who, because of heart seizure, open-heart surgery, or other life-threatening conditions, require intensified, comprehensive observation and care. May include myocardial infarction, pulmonary care, and heart transplant units.

Cardiac Rehabilitation: A medically supervised program to help heart patients recover quickly and improve their overall physical and mental functioning. The goal is to reduce risk of another cardiac event or to keep an already present heart condition from getting worse. Cardiac rehabilitation programs include: counseling to patients, an exercise program, helping patients modify risk factors such as smoking and high blood pressure, providing vocational guidance to enable the patient to return to work, supplying information on physical limitations and lending emotional support.

Case management: A system of assessment, treatment planning, referral and follow-up that ensures the provision of comprehensive and continuous services and the coordination of payment and reimbursement for care.

Chaplaincy/pastoral care services: A service ministering religious activities and providing pastoral counseling to patients, their families, and staff of a health care organization.

Chemotherapy: An organized program for the treatment of cancer by the use of drugs or chemicals.

Children's wellness program: A program that encourages improved health status and a healthful lifestyle of children through health education, exercise, nutrition and health promotion.

Chiropractic services: An organized clinical service including spinal manipulation or adjustment and related diagnostic and therapeutic services.

Closed physician-hospital organization (Closed PHO): A joint venture between the hospital and physicians who have been selected on the basis of cost-effectiveness and/or high quality. The PHO can act as a unified agent in managed care contracting, own a managed care plan, own and operate ambulatory care centers or ancillary services projects, or provide administrative services to physician members.

Community health education: Education that provides health information to individuals and populations, as well

as support for personal, family and community health decisions with the objective of improving health status.

Community hospitals: All nonfederal, short-term general, and special hospitals whose facilities and services are available to the public. (Special hospitals include obstetrics and gynecology; eye, ear, nose, and throat; rehabilitation; orthopedic; and other individually described specialty services.) Short-term general and special childrens hospitals are also considered to be community hospitals.

A hospital may include a nursing-home-type unit and still be classified as short-term, provided that the majority of its patients are admitted to units where the average length of stay is less than 30 days. Therefore, statistics for community hospitals often include some data about such nursing-home-type units. An example is furnished by Montana, where in 1995 63.6 percent of all hospitals classified as community hospitals include nursing-home-type units. Expense, revenue, utilization, and personnel data for these hospitals include data about their nursing-home-type units. Thus, total admissions to Montana community hospitals in 1995 were 96,154; total inpatient days, 997,759; total expenses, \$791,806,393; and total payroll expenses, \$352,583,331. If nursing-home-type unit data were excluded, these same items would be 94,034; 457,340; 752,567,865; and \$328,911,841, respectively.

Note that before 1972, hospital units of institutions such as prison and college infirmaries were included in the category of community hospitals. Including these units made this category equivalent to the short-term general and other special hospitals category. Although these hospital units are few in number and small in size, this change in definition should be taken into consideration when comparing data.

Community outreach: A program that systematically interacts with the community to identify those in need of services, alerting persons and their families to the availability of services, locating needed services, and enabling persons to enter the service delivery system.

Complementary and alternative medicine services: Organized hospital services or formal arrangements to providers that provide care or treatment not based solely on traditional western allopathic medical teachings as instructed in most U.S. medical schools. Includes any of the following: acupuncture, chiropractic, homeopathy, osteopathy, diet and lifestyle changes, herbal medicine, message therapy, etc.

Computer assisted orthopedic surgery (CAOS): Orthopedic surgery using computer technology, enabling three-dimensional graphic models to visualize a patient's anatomy.

Control: The type of organization responsible for establishing policy concerning the overall operation of

hospitals. The three major categories are government (including federal, state, and local); nongovernment (nonprofit); and investor-owned (for-profit).

Crisis prevention: Services provided in order to promote physical and mental well being and the early identification of disease and ill health prior to the onset and recognition of symptoms so as to permit early treatment.

CT scanner: Computed tomographic scanner for head or whole body scans.

Deduction from revenue: The difference between revenue at full established rates (gross) and the payment actually received from payers (net).

Dental Services: An organized dental service or dentists on staff, not necessarily involving special facilities, providing dental or oral services to inpatients or outpatients.

Diabetes prevention program: Program to prevent or delay the onset of type 2 diabetes by offering evidence-based lifestyle changes based on research studies, which showed modest behavior changes helped individuals with prediabetes reduce their risk of developing type 2 diabetes.

Diagnostic radioisotope facility: The use of radioactive isotopes (Radiopharmaceuticals) as tracers or indicators to detect an abnormal condition or disease.

Electrodiagnostic Services: Diagnostic testing services for nerve and muscle function including services such as nerve conduction studies and needle electromyography.

Electron beam computed tomography (EBCT): A high tech computed tomography scan used to detect coronary artery disease by measuring coronary calcifications. This imaging procedure uses electron beams which are magnetically steered to produce a visual of the coronary artery and the images are produced faster than conventional CT scans.

Emergency department: Hospital facilities for the provision of unscheduled outpatient services to patients whose conditions require immediate care.

Emergency room visits: The number of visits to the emergency unit. When emergency outpatients are admitted to the inpatient areas of the hospital, they are counted as emergency room visits and subsequently, as inpatient admissions.

Emergency services: Health services that are provided after the onset of a medical condition that manifests itself by symptoms of sufficient severity, including severe pain, that the absence of immediate medical attention could reasonably be expected by a prudent layperson, who possesses an average knowledge of health and medicine, to result in placing the patient's health in serious jeopardy.

Employment support services: Services designed to support individuals with significant disabilities to seek and maintain employment.

Enabling services: A program that is designed to help the patient access health care services by offering any of the following: transportation services and/or referrals to local social services agencies.

Endoscopic retrograde cholangiopancreatography (ERCP): A procedure in which a catheter is introduced through an endoscope into the bile ducts and pancreatic ducts. Injection of contrast materials permits detailed x-ray of these structures. The procedure is used diagnostically as well as therapeutically to relieve obstruction or remove stones.

Endoscopic ultrasound: Specially designed endoscope that incorporates an ultrasound transducer used to obtain detailed images of organs in the chest and abdomen. The endoscope can be passed through the mouth or the anus. When combined with needle biopsy the procedure can assist in diagnosis and staging of cancer.

Enrollment (insurance) assistance services: A program that provides enrollment assistance for patients who are potentially eligible for public health insurance programs such as Medicaid, State Children's Health Insurance, or local/state indigent care programs. The specific services offered could include explanation of benefits, assist applicants in completing the application and locating all relevant documents, conduct eligibility interviews, and/or forward applications and documentation to state/local social service or health agency.

Equity model: An arrangement that allows established practitioners to become shareholders in a professional corporation in exchange for tangible and intangible assets of their existing practices.

Esophageal impedance study: A test in which a catheter is placed through the nose into the esophagus to measure whether gas or liquids are passing from the stomach into the esophagus and causing symptoms.

Expenses: Includes all expenses for the reporting period including payroll, non-payroll, and all operating expenses. *Payroll expenses* include all salaries and wages. *Non-payroll expenses* are all professional fees and those salary expenditures excluded from payroll. *Labor related expenses* are defined as payroll expenses plus employee benefits. *Non-labor related expenses* are all other non-payroll expenses. Bad debt has been reclassified from an expense to a deduction from revenue in accordance with the revised AICPA Audit Guide. Note: Financial data may not add due to rounding.

Expenses per adjusted admission stay: Total expenses divided by adjusted admissions (see *adjusted admission*).

Expenses per adjusted inpatient days: Expenses divided by adjusted inpatient days (see *adjusted inpatient days*).

Extracorporeal shock wave lithotripter (ESWL): A medical device used for treating stones in the kidney or urethra. The device disintegrates kidney stones noninvasively through the transmission of acoustic shock waves directed at the stones.

Fertility Clinic: A specialized program set in an infertility center that provides counseling and education as well as advanced reproductive techniques such as: injectable therapy, reproductive surgeries, treatment for endometriosis, male factor infertility, tubal reversals, in vitro fertilization (IVF), donor eggs, and other such services to help patients achieve successful pregnancies.

Fitness center: Provides exercise, testing, or evaluation programs and fitness activities to the community and hospital employees.

Foundation: A corporation, organized as a hospital affiliate or subsidiary, that purchases both tangible and intangible assets of one or more medical group practices. Physicians remain in a separate corporate entity but sign a professional services agreement with the foundation.

Freestanding outpatient care center: A facility owned and operated by the hospital, that is physically separate from the hospital and provides various medical treatments and diagnostic services on an outpatient basis only. Laboratory and radiology services are usually available.

Full-field digital mammography (FFDM): Combines the x-ray generators and tubes used in analog screen-film mammography (SFM) with a detector plate that converts the x-rays into a digital signal.

Full time equivalent employees (FTE): Full time personnel on payroll plus one half of the part time personnel on payroll. For purposes of *AHA Hospital Statistics*, full time and part time medical and dental residents/interns and other trainees are excluded from the calculation.

General medical-surgical care: Provides acute care to patients in medical and surgical units on the basis of physicians' orders and approved nursing care plans.

Genetic testing/counseling: A service equipped with adequate laboratory facilities and directed by a qualified physician to advise parents and prospective parents on potential problems in cases of genetic defects. A genetic test is the analysis of human DNA, RNA, chromosomes, proteins, and certain metabolites in order to detect heritable disease-related genotypes, mutations, phenotypes, or karyotypes for clinical purposes. Genetic tests can have diverse purposes, including the diagnosis of genetic diseases in newborns, children, and adults; the identification of future health risks; the prediction of drug responses; and the assessment of risks to future children.

Geriatric services: The branch of medicine dealing with the physiology of aging and the diagnosis and treatment of disease affecting the aged. Services could include: Adult day care; Alzheimer's diagnostic-assessment services; Comprehensive geriatric assessment; Emergency response system; Geriatric acute care unit; and/or Geriatric clinics.

Government, nonfederal, state, local: Controlled by an agency of state, county, or city government.

Gross inpatient revenue: Revenue from services rendered to inpatients at full established rates (also known as "charges").

Gross outpatient revenue: Revenue from services rendered to outpatients at full established rates.

Group practice without walls: In this organization, the hospital sponsors the formation of a physician group or provides capital to physicians to establish one. The group shares administrative expenses, although the physicians remain independent practitioners.

Group Purchasing Organization: An organization whose primary function is to negotiate contracts for the purpose of purchasing for members of the group or has a central supply site for its members.

Health fair: Community health education events that focus on the prevention of disease and promotion of health through such activities as audiovisual exhibits and free diagnostic services.

Health Research: Organized hospital research program in any of the following areas: basic research, clinical research, community health research, and/or research on innovative health care delivery.

Health screening: A preliminary procedure such as a test or examination to detect the most characteristic sign or signs of a disorder that may require further investigation.

Heart transplant: See definition for Transplant services on page 213.

Hemodialysis: Provision of equipment and personnel for the treatment of renal insufficiency on an inpatient or outpatient basis.

HIV-AIDS services: (could include). *HIV-AIDS unit* – Special unit or team designated and equipped specifically for diagnosis, treatment, continuing care planning, and counseling services for HIV-AIDS patients and their families. *General inpatient care for HIV-AIDS* – Inpatient diagnosis and treatment for human immunodeficiency virus and acquired immunodeficiency syndrome patients, but dedicated unit is not available. *Specialized outpatient program for HIV-AIDS* – Special outpatient program providing diagnostic, treatment, continuing care planning, and counseling for HIV-AIDS patients and their families.

Home health services: Service providing nursing, therapy, and health-related homemaker or social services in the patient's home.

Hospice: A program providing palliative care, chiefly medical relief of pain and supportive services, addressing the emotional, social, financial, and legal needs of terminally ill patients and their families. Care can be provided in a variety of settings, both inpatient and at home.

Hospital unit: The hospital operation, excluding activity pertaining to nursing-home-type unit (as described below), for the following items: Admissions, Beds, FTEs (full-time, part-time, and total), Inpatient Days, Length of Stay, Net Revenue, and Total Expense.

Hospital unit of institutions: A hospital unit that is not open to the public and is contained within a nonhospital unit. An example is an infirmary that is contained within a college.

Hospitals in a network: Hospitals participating in a group that may include other hospitals, physicians, other providers, insurers, and/or community agencies that work together to coordinate and deliver a broad spectrum of services to the community.

Hospitals in a system: Hospitals belonging to a corporate body that owns and/or manages health provider facilities or health-related subsidiaries; the system may also own non-health-related facilities.

Image-guided radiation therapy (IGRT): Automated system for image-guided radiation therapy that enables clinicians to obtain high-resolution x-ray images to pinpoint tumor sites, adjust patient positioning when necessary, and complete a treatment, all within the standard treatment time slot, allowing for more effective cancer treatments.

Immunization program: Program that plans, coordinates and conducts immunization services in the community.

Indemnity fee for service: The traditional type of health insurance, in which the insured is reimbursed for covered expenses without regard to choice of provider. Payment up to a stated limit may be made either to the individual incurring and claiming the expense, or directly to providers.

Independent practice association (IPA): An IPA is a legal entity that holds managed care contracts and contracts with physicians, usually in solo practice, to provide care either on a fee-for-services or capitated basis. The purpose of an IPA is to assist solo physicians in obtaining managed care contracts.

Indigent care clinic: Health care services for uninsured and underinsured persons where care is free of charge or charged on a sliding scale. This would include "free clinics" staffed by volunteer practitioners, but could also be staffed by employees with sponsoring health care organizations subsidizing the cost of service.

Inpatient days: The number of adult and pediatric days of care, excluding newborn days of care, rendered during the entire reporting period.

Inpatient palliative care unit: An inpatient palliative care ward is a physically discreet, inpatient nursing unit where the focus is palliative care. The patient care focus is on symptom relief for complex patients who may be continuing to undergo primary treatment. Care is delivered by palliative medicine specialists.

Inpatient surgeries: Surgical services provided to patients who remain in the hospital overnight.

Integrated salary model: In this arrangement, physicians are salaried by the hospital or other entity of a health system to provide medical services for primary care and specialty care.

Intensity-Modulated Radiation Therapy (IMRT): A type of three-dimensional radiation therapy, which improves the targeting of treatment delivery in a way that is likely to decrease damage to normal tissues and allows varying intensities.

Intermediate nursing care: Provides health-related services (skilled nursing care and social services) to residents with a variety of physical conditions or functional disabilities. These residents do not require the care provided by a hospital or skilled nursing facility, but do need supervision and support services.

Intraoperative magnetic resonance imaging: An integrated surgery system which provides an MRI system in an operating room. The system allows for immediate evaluation of the degree to tumor resection while the patient is undergoing a surgical resection. Intraoperative MRI exists when a MRI (low-field or high-field) is placed in the operating theater and is used during surgical resection without moving the patient from the operating room to the diagnostic imaging suite.

Investor-owned, for-profit: Investor-owned, for-profit hospitals are those controlled on a for-profit basis by an individual, partnership, or profit-making corporation.

Kidney transplant: See definition for Transplant services on page 213.

Labor-related expenses: Payroll expenses plus employee benefits. *Non-labor-related expenses* refers to all other nonpayroll expenses, such as interest depreciation, supplies, purchased services, professional fees, and others.

Length of stay (LOS): LOS refers to the average number of days a patient stays at the facility. Short-term hospitals are those where the average LOS is less than 30 days. Long-term hospitals are those where the average LOS is 30 days or more. The figure is derived by dividing the number of inpatient days by the number of admissions.

Note that this publication carries two LOS variables: *total facility length of stay* and *hospital unit length of stay*. *Total facility* includes admissions and inpatient days from nursing-home-type units under control of the hospital. In *hospital unit length of stay*, nursing home utilization is subtracted.

Licensed practical nurse (LPN): A nurse who has graduated from an approved school of practical (vocational) nursing and works under the supervision of registered nurses and/or physicians.

Linguistic/Translation services: Services provided by the hospital designed to make health care more accessible to non-English speaking patients and their physicians.

Liver transplant: See definition for Transplant services on page 213.

Long-term: Hospitals are classified either short-term or long-term according to the average length of stay (LOS). A long-term hospital is one in which the average LOS is 30 days or more.

Lung transplant: See definition for Transplant services on page 213.

Magnetic resonance imaging (MRI): The use of a uniform magnetic field and radio frequencies to study tissue and structure of the body. This procedure enables the visualization of biochemical activity of the cell in vivo without the use of ionizing radiation, radio-isotopic substances, or high-frequency sound.

Magnetoencephalography: a noninvasive neurophysiological measurement tool used to study magnetic fields generated by neuronal activity of the brain. The primary uses of MEG include assisting surgeons in localizing the source of epilepsy, sensory mapping, and the study of brain function. When it is combined with structural imaging, it is known as magnetic source imaging (MSI).

Management services organization (MSO): A corporation owned by the hospital or a physician/hospital joint venture that provides management services to one or more medical group practices. As part of a full-service management agreement, the MSO purchases the tangible assets of the practices and leases them back, employs all non-physician staff, and provides all supplies/administrative systems for a fee.

Meals on wheels: A hospital sponsored program which delivers meals to people, usually the elderly, who are unable to prepare their own meals. Low cost, nutritional meals are delivered to individuals' homes on a regular basis.

Medical surgical intensive care: Provides patient care of a more intensive nature than the usual medical and surgical care, on the basis of physicians' orders and approved nursing care plans. These units are staffed with

specially trained nursing personnel and contain monitoring and specialized support equipment for patients who, because of shock, trauma, or other life-threatening conditions, require intensified, comprehensive observation and care. Includes mixed intensive care units.

Mobile health services: Vans and other vehicles used to deliver primary care services.

Multi-slice spiral computed tomography (<64 slice CT): A specialized computed tomography procedure that provides three-dimensional processing and allows narrower and multiple slices with increased spatial resolution and faster scanning times as compared to a regular computed tomography scan.

Multi-slice spiral computed tomography (64+ slice CT): Involves the acquisition of volumetric tomographic x-ray absorption data expressed in Hounsfield units using multiple rows of detectors. 64+ systems reconstruct the equivalent of 64 or greater slices to cover the imaged volume.

Neonatal intensive care: A unit that must be separate from the newborn nursery providing intensive care to all sick infants including those with the very lowest birth weights (less than 1500 grams). NICU has potential for providing mechanical ventilation, neonatal surgery, and special care for the sickest infants born in the hospital or transferred from another institution. A full-time neonatologist serves as director of the NICU.

Neonatal intermediate care: A unit that must be separate from the normal newborn nursery and that provides intermediate and/or recovery care and some specialized services, including immediate resuscitation, intravenous therapy, and capacity for prolonged oxygen therapy and monitoring.

Net patient revenue: The estimated net realizable amounts from patients, third-party payers, and others for services rendered. The number includes estimated retroactive adjustments called for by agreements with third-party payers; retroactive adjustments are accrued on an estimated basis in the period the related services are rendered and then adjusted later as final settlements are determined.

Net total revenue: Net patient revenue plus all other revenue, including contributions, endowment revenue, governmental grants, and all other payments not made on behalf of individual patients.

Neurological services: Services provided by the hospital dealing with the operative and nonoperative management of disorders of the central, peripheral, and autonomic nervous system.

Nongovernment, nonprofit: Hospitals that are nongovernment, nonprofit are controlled by

not-for-profit organizations, including religious organizations (Catholic hospitals, for example), fraternal societies, and others.

Nursing-home-type unit/facility: A unit/ facility that primarily offers the following type of services to a majority of all admissions:

- *Skilled nursing:* The provision of medical and nursing care services, health-related services, and social services under the supervision of a registered nurse on a 24-hour basis.
- *Intermediate care:* The provision, on a regular basis, of health-related care and services to individuals who do not require the degree of care or treatment that a skilled nursing unit is designed to provide.
- *Personal care:* The provision of general supervision and direct personal care services for residents who require assistance in activities of daily living but who do not need nursing services or inpatient care. Medical and nursing services are available as needed.
- *Sheltered/residential care:* The provision of general supervision and protective services for residents who do not need nursing services or continuous personal care services in the conduct of daily life. Medical and nursing services are available as needed.

Nutrition programs: Those services within a health care facility which are designed to provide inexpensive, nutritionally sound meals to patients.

Obstetrics: Levels should be designated: (1) unit provides services for uncomplicated maternity and newborn cases; (2) unit provides services for uncomplicated cases, the majority of complicated problems, and special neonatal services; and (3) unit provides services for all serious illnesses and abnormalities and is supervised by a full-time maternal/fetal specialist.

Occupational health services: Includes services designed to protect the safety of employees from hazards in the work environment.

Off-campus emergency department: A facility owned and operated by the hospital but physically separate from the hospital for the provision of unscheduled outpatient services to patients whose conditions require immediate care. A freestanding ED is not physically connected to a hospital but has all the necessary emergency staffing and equipment on site.

Oncology services: Inpatient and outpatient services for patients with cancer, including comprehensive care, support and guidance in addition to patient education and prevention, chemotherapy, counseling and other treatment methods.

Open physician hospital organization (Open PHO): A joint venture between the hospital and all members of the medical staff who wish to participate. The open PHO

can act as a unified agent in managed care contracting, own a managed care plan, own and operate ambulatory care centers or ancillary services projects, or provide administrative services to physician members.

Optical colonoscopy: An examination of the interior of the colon using a long, flexible, lighted tube with a small built-in camera.

Orthopedic services: Services provided for the prevention or correction of injuries or disorders of the skeletal system and associated muscles, joints and ligaments.

Osteopathic hospitals: Osteopathic medicine is a medical practice based on a theory that diseases are due chiefly to a loss of structural integrity, which can be restored by manipulation of the neuro-muscular and skeletal systems, supplemented by therapeutic measures (such as medicine or surgery).

Other Intensive Care: A specially staffed, specialty equipped, separate section of a hospital dedicated to the observation, care, and treatment of patients with life threatening illnesses, injuries, or complications from which recovery is possible. It provides special expertise and facilities for the support of vital function and utilizes the skill of medical nursing and other staff experienced in the management of these problems.

Other long-term care: Provision of long-term care other than skilled nursing care or intermediate care for those who do not require daily medical or nursing services, but may require some assistance in the activities of daily living. This can include residential care, elderly care, or sheltered care facilities for developmentally disabled.

Other special care: Provides care to patients requiring care more intensive than that provided in the acute area, yet not sufficiently intensive to require admission to an intensive care unit. Patients admitted to this area are usually transferred here from an intensive care unit once their condition has improved. These units are sometimes referred to as definitive observation, step-down, or progressive care units.

Other transplant: See definition for Transplant services on page 213.

Outpatient care: Treatment provided to patients who do not remain in the hospital for overnight care. Hospitals may deliver outpatient care on site or through a facility owned and operated by the hospital, but physically separate from the hospital. In addition to treating minor illnesses or injuries, a free-standing center will stabilize seriously ill or injured patients before transporting them to a hospital. Laboratory and radiology services are usually available.

Outpatient care center (Freestanding): A facility owned and operated by the hospital, but physically separate from the hospital, that provides various medical

treatments on an outpatient basis only. In addition to treating minor illnesses or injuries, the center will stabilize seriously ill or injured patients before transporting them to a hospital. Laboratory and radiology services are usually available.

Outpatient care center-services (Hospital-based):

Organized hospital health care services offered by appointment on an ambulatory basis. Services may include outpatient surgery, examination, diagnosis, and treatment of a variety of medical conditions on a nonemergency basis, and laboratory and other diagnostic testing as ordered by staff or outside physician referral.

Outpatient surgery: Scheduled surgical services provided to patients who do not remain in the hospital overnight. The surgery may be performed in operating suites also used for inpatient surgery, specially designated surgical suites for outpatient surgery, or procedure rooms within an outpatient care facility.

Outpatient visit: A visit by a patient who is not lodged in the hospital while receiving medical, dental, or other services. Each visit an outpatient makes to a discrete unit constitutes one visit regardless of the number of diagnostic and/or therapeutic treatments that the patient receives. Total outpatient visits should include all clinic visits, referred visits, observation services, outpatient surgeries, and emergency room visits.

Pain Management Program: A recognized clinical service or program providing specialized medical care, drugs or therapies for the management of acute or chronic pain or other distressing symptom, administered by specially trained physicians and other clinicians, to patients suffering from acute illness of diverse causes.

Palliative Care Inpatient Unit: An inpatient palliative care ward is a physically discreet, inpatient nursing unit where the focus is palliative care. The patient care focus is on symptom relief for complex patients who may be continuing to undergo primary treatment. Care is delivered by palliative medicine specialists.

Palliative care program: An organized program providing specialized medical care, drugs or therapies for the management of acute or chronic pain and/or the control of symptoms administered by specially trained physicians and other clinicians; and supportive care services, such as counseling on advanced directives, spiritual care, and social services, to patients with advanced disease and their families.

Patient Controlled Analgesia (PCA): Patient-controlled Analgesia (PCA) is intravenously administered pain medicine under the patient's control. The patient has a button on the end of a cord than can be pushed at will, whenever more pain medicine is desired. This button will only deliver more pain medicine at pre-determined intervals, as programmed by the doctor's order.

Patient education center: Written goals and objectives for the patient and/or family related to therapeutic regimens, medical procedures, and self care.

Patient representative services: Organized hospital services providing personnel through whom patients and staff can seek solutions to institutional problems affecting the delivery of high-quality care and services.

Payroll expenses: Includes all salaries and wages. All professional fees and salary expenditures excluded from payroll, such as employee benefits, are defined as nonpayroll expenses and are included in total expenses.

Pediatric Cardiac Surgery: Includes minimally invasive procedures that include surgery done with only a small incision or no incision at all, such as through a laparoscope or an endoscope and more invasive major surgical procedures that include open chest and open heart surgery.

Pediatric Cardiology Services: An organized clinical service offering diagnostic and interventional procedures to manage the full range of pediatric heart conditions.

Pediatric Diagnostic/invasive catheterization: (also called coronary angiography or coronary arteriography) is used to assist in diagnosing complex heart conditions. Cardiac angiography involves the insertion of a tiny catheter into the artery in the groin then carefully threading the catheter up into the aorta where the coronary arteries originate. Once the catheter is in place, a dye is injected which allows the cardiologist to see the size, shape, and distribution of the coronary arteries. These images are used to diagnose heart disease and to determine, among other things, whether or not surgery is indicated.

Pediatric intensive care: Provides care to pediatric patients that is of a more intensive nature than that usually provided to pediatric patients. The unit is staffed with specially trained personnel and contains monitoring and specialized support equipment for treatment of patients who, because of shock, trauma, or other life-threatening conditions, require intensified, comprehensive observation and care.

Pediatric Interventional cardiac catheterization: Non surgical procedure that utilizes the same basic principles as diagnostic catheterization and then uses advanced techniques to improve the heart's function. It can be a less-invasive alternative to heart surgery.

Pediatric medical-surgical care: Provides acute care to pediatric patients on the basis of physicians' orders and approved nursing care plans.

Personnel: Number of persons on the hospital payroll at the end of the reporting period. Personnel are recorded in *Hospital Statistics* as full-time equivalents (FTEs), which are calculated by adding the number of full-time personnel to one-half the number of part-time personnel,

excluding medical and dental residents, interns, and other trainees. *Per 100 adjusted census* indicates the ratio of personnel to adjusted average daily census, calculated on a per-100 basis.

Physical rehabilitation inpatient care: Provides care encompassing a comprehensive array of restoration services for the disabled and all support services necessary to help patients attain their maximum functional capacity.

Physical rehabilitation outpatient services: Outpatient program providing medical, health-related, therapy, social, and/or vocational services to help disabled persons attain or retain their maximum functional capacity.

Population: Population refers to the residential population of the United States. This includes both civilian and military personnel. Note that population is being used to calculate the values for *community health indicators per 1000 population*.

Positron emission tomography/CT (PET/CT): Provides metabolic functional information for the monitoring of chemotherapy, radiotherapy and surgical planning.

Positron emission tomography scanner (PET): A nuclear medicine imaging technology which uses radioactive (positron emitting) isotopes created in a cyclotron or generator and computers to produce composite pictures of the brain and heart at work. PET scanning produces sectional images depicting metabolic activity or blood flow rather than anatomy.

Primary care department: A unit or clinic within the hospital that provides primary care services (e.g. general pediatric care, general internal medicine, family practice, gynecology) through hospital-salaried medical and/or nursing staff, focusing on evaluating and diagnosing medical problems and providing medical treatment on an outpatient basis.

Prosthetic and Orthotic Services: Services providing comprehensive prosthetic and orthotic evaluation, fitting, and training.

Proton beam therapy: A form of radiation therapy which administers proton beams. While producing the same biologic effects as x-ray beams, the energy distribution of protons differs from conventional x-ray beams in that they can be more precisely focused in tissue volumes in a three-dimensional pattern resulting in less surrounding tissue damage than conventional radiation therapy permitting administration of higher doses.

Psychiatric pediatric care: The branch of medicine focused on the diagnosis, treatment and prevention of mental, emotional and behavioral disorders in pediatric patients.

Psychiatric consultation-liaison services: Provides organized psychiatric consultation/liaison services to

nonpsychiatric hospital staff and/or departments on psychological aspects of medical care that may be generic or specific to individual patients.

Psychiatric education services: Provides psychiatric educational services to community agencies and workers such as schools, police, courts, public health nurses, welfare agencies, clergy, and so forth. The purpose is to expand the mental health knowledge and competence of personnel not working in the mental health field and to promote good mental health through improved understanding, attitudes, and behavioral patterns.

Psychiatric emergency services: Services of facilities available on a 24-hour basis to provide immediate unscheduled out-patient care, diagnosis, evaluation, crisis intervention, and assistance to persons suffering acute emotional or mental distress.

Psychiatric geriatric services: Provides care to emotionally disturbed elderly patients, including those admitted for diagnosis and those admitted for treatment.

Psychiatric inpatient care: Provides acute or long-term care to emotionally disturbed patients, including patients admitted for diagnosis and those admitted for treatment of psychiatric problems, on the basis of physicians' orders and approved nursing care plans. Long-term care may include intensive supervision to the chronically mentally ill, mentally disordered, or other mentally incompetent persons.

Psychiatric intensive outpatient services: A prescribed course of treatment in which the patient receives outpatient care no less than three times a week (which might include more than one service/day)

Psychiatric outpatient services: Provides medical care, including diagnosis and treatment, of psychiatric outpatients.

Psychiatric partial hospitalization program: Organized hospital services of intensive day/evening outpatient services of three hours of more duration, distinguished from other outpatient visits of one hour.

Psychiatric residential treatment: Overnight psychiatric care in conjunction with an intensive treatment program in a setting other than a hospital.

Radiology, diagnostic: The branch of radiology that deals with the utilization of all modalities of radiant energy in medical diagnoses and therapeutic procedures using radiologic guidance. This includes, but is not restricted to, imaging techniques and methodologies utilizing radiation emitted by x-ray tubes, radionuclides, and ultrasonographic devices and the radiofrequency electromagnetic radiation emitted by atoms.

Radiology, therapeutic: The branch of medicine concerned with radioactive substances and using various techniques of visualization, with the diagnosis and

treatment of disease using any of the various sources of radiant energy. Services could include: megavoltage radiation therapy; radioactive implants; stereotactic radiosurgery; therapeutic radioisotop facility; X-ray radiation therapy.

Registered nurse (RN): A nurse who has graduated from an approved school of nursing and who is currently registered by the state. RNs are responsible for the nature and quality of all nursing care that patients receive. In these tables, the number of RNs does not include those registered nurses more appropriately reported in other occupational categories, such as facility administrators, which are listed under *all other personnel* (Tables 1 and 2).

Rehabilitation services: A wide array of restoration services for disabled and recuperating patients, including all support services necessary to help them attain their maximum functional capacity.

Retirement housing: A facility which provides social activities to senior citizens, usually retired persons, who do not require health care but some short-term skilled nursing care may be provided. A retirement center may furnish housing and may also have acute hospital and long-term care facilities, or it may arrange for acute and long term care through affiliated institutions.

Robot-assisted walking therapy: A form of physical therapy that uses a robotic device to assist patients who are relearning how to walk.

Robotic surgery: The use of mechanical guidance devices to remotely manipulate surgical instrumentation.

Rural: A rural hospital is located outside a Metropolitan Statistical Area (MSA), as designated by the U.S. Office of Management and Budget (OMB) effective June 6, 2003. An urban area is a geographically defined, integrated social and economic unit with a large population nucleus. Micropolitan areas, which are new to the OMB June 6, 2003 definitions, continue to be classified as rural for purposes of this publication.

Rural Health Clinic: A clinic located in a rural, medically under-served area in the United States that has a separate reimbursement structure from the standard medical office under the Medicare and Medicaid programs.

Shaped beam radiation system: A precise, non-invasive treatment that involves targeting beams of radiation that mirrors the exact size and shape of a tumor at a specific area of a tumor to shrink or destroy cancerous cells. This procedure delivers a therapeutic dose of radiation that conforms precisely to the shape of the tumor, thus minimizing the risk to nearby tissues.

Simulated rehabilitation environment: Rehabilitation focused on retraining functional skills in a contextually appropriate environment (simulated home and

community settings) or in a traditional setting (gymnasium) using motor learning principles.

Single photon emission computerized tomography (SPECT): A nuclear medicine imaging technology that combines existing technology of gamma camera imaging with computed tomographic imaging technology to provide a more precise and clear image.

Skilled nursing care: Provides non-acute medical and skilled nursing care services, therapy, and social services under the supervision of a licensed registered nurse on a 24-hour basis.

Sleep Center: Specially equipped and staffed center for the diagnosis and treatment of sleep disorders.

Social work services (could include): Organized services that are properly directed and sufficiently staffed by qualified individuals who provide assistance and counseling to patients and their families in dealing with social, emotional, and environmental problems associated with illness or disability, often in the context of financial or discharge planning coordination.

Sports medicine: Provision of diagnostic screening and assessment and clinical and rehabilitation services for the prevention and treatment of sports-related injuries.

Stereotactic radiosurgery: Stereotactic radiosurgery (SRS) is a radiotherapy modality that delivers a high dosage of radiation to a discrete treatment area in as few as one treatment session. Includes gamma knife, cyberknife, etc.

Support groups: A hospital sponsored program that allows a group of individuals with the same or similar problems who meet periodically to share experiences, problems, and solutions in order to support each other.

Supportive housing services: A hospital program that provides decent, safe, affordable, community-based housing with flexible support services designed to help the individual or family stay housed and live a more productive life in the community.

Surgical operations: Those surgical operations, whether major or minor, performed in the operating room(s). A surgical operation involving more than one surgical procedure is still considered only one surgical operation.

Swing bed services: A hospital bed that can be used to provide either acute or long-term care depending on community or patient needs. To be eligible a hospital must have a Medicare provider agreement in place, have fewer than 100 beds, be located in a rural area, do not have a 24 hour nursing service waiver in effect, have not been terminated from the program in the prior two years, and meet various service conditions.

Teen outreach services: A program focusing on the teenager which encourages an improved health status

and a healthful lifestyle including physical, emotional, mental, social, spiritual and economic health through education, exercise, nutrition and health promotion.

Telehealth: A broad variety of technologies and tactics to deliver virtual medical, public health, health education delivery and support services using telecommunications technologies. Telehealth is used more commonly as it describes the wide range of diagnosis and management, education, and other related fields of health care. This includes, but are not limited to: dentistry, counseling, physical and occupational therapy, home health, chronic disease monitoring and management, disaster management and consumer and professional education, and remote patient monitoring.

Tissue transplant: See definition for Transplant services below.

Tobacco treatment/cessation program: Organized hospital services with the purpose of ending tobacco-use habits of patients addicted to tobacco/nicotine.

Transplant services: The branch of medicine that transfers an organ or tissue from one person to another or from one body part to another to replace a diseased structure or to restore function or to change appearance. Services could include: bone marrow transplant program; heart, lung, kidney, intestine, or tissue transplant. The other transplant services include transplant services other than bone marrow, heart, kidney, liver, lung, tissue and heart/lung or other multi-transplant surgeries.

Transportation to health facilities: A long-term care support service designed to assist the mobility of the elderly. Some programs offer improved financial access by offering reduced rates and barrier-free buses or vans with ramps and lifts to assist the elderly or handicapped; others offer subsidies for public transport systems or operate mini-bus services exclusively for use by senior citizens.

Trauma center (certified): A facility to provide emergency and specialized intensive care to critically ill and injured patients. **Level 1:** A regional resource trauma center, which is capable of providing total care for every aspect of injury and plays a leadership role in trauma research and education. **Level 2:** A community trauma center, which is capable of providing trauma care to all but the most severely injured patients who require highly specialized care. **Level 3:** A rural trauma hospital, which is capable of providing care to a large number of injury victims and can resuscitate and stabilize more severely injured patients so that they can be transported to Level 1 or 2 facilities.

Ultrasound: The use of acoustic waves above the range of 20,000 cycles per second to visualize internal body structures.

Urban: An urban hospital is located inside a Metropolitan Statistical Area (MSA), designated by the U.S. Office of Management and Budget effective June 6, 2003. An urban areas is a geographically defined, integrated social and economic unit with a large population base. Micropolitan areas, which are new to the OMB June 6, 2003 definitions, are not considered to be urban for purposes of this publication.

Urgent care center: A facility that provides care and treatment for problems that are not life-threatening but require attention over the short term.

Violence prevention programs for the workplace: A violence prevention program with goals and objectives for preventing workplace violence against staff and patients.

Violence prevention programs for the community: An organized program that attempts to make a positive impact on the type(s) of violence a community is experiencing. For example, it can assist victims of violent crimes, e.g., rape, or incidents, e.g., bullying, to hospital or to community services to prevent further victimization or retaliation. A program that targets the underlying circumstances that contribute to violence such as poor housing, insufficient job training, and/or substance abuse through means such as direct involvement and support, education, mentoring, anger management, crisis intervention and training programs would also qualify.

Virtual colonoscopy: Noninvasive screening procedure used to visualize, analyze and detect cancerous or potentially cancerous polyps in the colon.

Volunteer services department: An organized hospital department responsible for coordinating the services of volunteers working within the institution.

Women's health center/services: An area set aside for coordinated education and treatment services specifically for and promoted to women as provided by this special unit. Services may or may not include obstetrics but include a range of services other than OB.

Wound Management Services: Services for patients with chronic wounds and nonhealing wounds often resulting from diabetes, poor circulation, improper seating and immunocompromising conditions. The goals are to progress chronic wounds through stages of healing, reduce and eliminate infections, increase physical function to minimize complications from current wounds and prevent future chronic wounds. Wound management services are provided on an inpatient or outpatient basis, depending on the intensity of service needed.

2019 AHA Annual Survey American Hospital Association

HOSPITAL NAME: _____

CITY & STATE: _____

Please return to:
AHA Annual Survey
155 N Wacker Drive
Suite 400
Chicago IL 60606

A. REPORTING PERIOD (please refer to the instructions and definitions at the end of this questionnaire)

Report data for a full 12-month period, preferably your last completed fiscal year (365 days). Be consistent in using the same reporting period for responses throughout various sections of this survey.

1. Reporting Period used (beginning and ending date) / / to / /
Month Day Year Month Day Year
2. a. Were you in operation 12 full months
at the end of your reporting period? YES ☐ NO ☐
- b. Number of days open
during reporting period
3. Indicate the beginning of your current fiscal year / /
Month Day Year

B. ORGANIZATIONAL STRUCTURE

1. CONTROL

Indicate the type of organization that is responsible for establishing policy for overall operation of your hospital. CHECK ONLY ONE:

Government, nonfederal

- ☐ 12 State
☐ 13 County
☐ 14 City
☐ 15 City-County
☐ 16 Hospital district or authority

Nongovernment, not-for-profit (NFP)

- ☐ 21 Church-operated
☐ 23 Other not-for-profit (including NFP Corporation)

Investor-owned, for-profit

- ☐ 31 Individual
☐ 32 Partnership
☐ 33 Corporation

Government, federal

- ☐ 40 Department of Defense
☐ 44 Public Health Service
☐ 45 Veterans' Affairs
☐ 46 Federal other than 40-45 or 47-48
☐ 47 PHS Indian Service
☐ 48 Department of Justice

2. SERVICE

Indicate the ONE category that BEST describes your hospital or the type of service it provides to the MAJORITY of patients:

- | | |
|--|--|
| <input type="checkbox"/> 10 General medical and surgical | <input type="checkbox"/> 46 Rehabilitation |
| <input type="checkbox"/> 11 Hospital unit of an institution (prison hospital, college infirmary) | <input type="checkbox"/> 47 Orthopedic |
| <input type="checkbox"/> 12 Hospital unit within a facility for persons with intellectual disabilities | <input type="checkbox"/> 48 Chronic disease |
| <input type="checkbox"/> 13 Surgical | <input type="checkbox"/> 62 Intellectual disabilities |
| <input type="checkbox"/> 22 Psychiatric | <input type="checkbox"/> 80 Acute long-term care hospital |
| <input type="checkbox"/> 33 Tuberculosis and other respiratory diseases | <input type="checkbox"/> 82 Alcoholism and other chemical dependency |
| <input type="checkbox"/> 41 Cancer | <input type="checkbox"/> 49 Other - specify treatment area: _____ |
| <input type="checkbox"/> 42 Heart | |
| <input type="checkbox"/> 44 Obstetrics and gynecology | |
| <input type="checkbox"/> 45 Eye, ear, nose, and throat | |

B. ORGANIZATIONAL STRUCTURE (continued)

3. OTHER

- a. Does your hospital restrict admissions primarily to children? YES ☐ NO ☐
- b. Does the hospital itself operate subsidiary corporations? YES ☐ NO ☐
- c. Is the hospital contract managed? If yes, please provide the name, city, and state of the organization.... YES ☐ NO ☐

Name: _____ City: _____ State: _____

- d. Is your hospital owned in whole or in part by physicians or a physician group?..... YES ☐ NO ☐

- e. If you checked 80 Acute long-term care hospital (LTCH) in Section B2 (Service), please indicate if you are a freestanding LTCH or a LTCH arranged within a general acute care hospital.

☐ Free standing LTCH ☐ LTCH arranged in a general acute care hospital

If you are arranged in a general acute care hospital, what is your host hospital's name?

Name _____ City _____ State _____

- f. Are any other types of hospitals co-located in your hospital? YES ☐ NO ☐

- g. If yes, what type of hospital is co-located? (Check all that apply)

1. ☐ Cancer
2. ☐ Cardiac
3. ☐ Orthopedic
4. ☐ Pediatric
5. ☐ Psychiatric
6. ☐ Surgical
7. ☐ Other _____

C. FACILITIES AND SERVICES

For each service or facility listed below, please check all the categories that describe how each item is provided as of the last day of the reporting period. Check all categories that apply for an item. If you check column (1) C1-19, please include the number of staffed beds. The sum of the beds reported in 1-19 should equal Section E(1b), beds set up and staffed on page 12.

	(1) Owned or provided by my hospital or its subsidiary	(2) Provided by my Health System (In my local community)	(3) Provided through a formal contractual arrangement or joint venture with another provider that is not in my system (in my local community)	(4) Do Not Provide
1. General medical-surgical care (#Beds _____)	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
2. Pediatric medical-surgical care (#Beds _____)	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
3. Obstetrics [Hospital level of unit (1-3): (____)] (#Beds _____)	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
4. Medical-surgical intensive care (#Beds _____)	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
5. Cardiac intensive care (#Beds _____)	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
6. Neonatal intensive care (#Beds _____)	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

31. Blood donor center	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
32. Breast cancer screening/mammograms	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

C. FACILITIES AND SERVICES (continued)

	(1) Owned or provided by my hospital or its subsidiary	(2) Provided by my Health System (in my local community)	(3) Provided through a formal contractual arrangement or joint venture with another provider that is not in my system (in my local community)	(4) Do Not Provide
33. Cardiology and cardiac surgery services				
a. Adult cardiology services	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
b. Pediatric cardiology services	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
c. Adult diagnostic catheterization	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
d. Pediatric diagnostic catheterization	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
e. Adult interventional cardiac catheterization	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
f. Pediatric interventional cardiac catheterization	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
g. Adult cardiac surgery	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
h. Pediatric cardiac surgery	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
i. Adult cardiac electrophysiology	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
j. Pediatric cardiac electrophysiology	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
k. Cardiac rehabilitation	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
34. Case management	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
35. Chaplaincy/pastoral care services	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
36. Chemotherapy	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
37. Children's wellness program	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
38. Chiropractic services	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
39. Community outreach	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
40. Complementary and alternative medicine services	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
41. Computer assisted orthopedic surgery (CAOS)	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
42. Crisis prevention	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
43. Dental services	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
44. Diabetes prevention program	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
45. Emergency services				
a. On-campus emergency department	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
b. Off-campus emergency department	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
c. Pediatric emergency department	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
d. Trauma center (certified) [Hospital level of unit (1-3) _____]	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
46. Enabling services	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
47. Endoscopic services				
a. Optical colonoscopy	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
b. Endoscopic ultrasound	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
c. Ablation of Barrett's esophagus	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
d. Esophageal impedance study	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
e. Endoscopic retrograde cholangiopancreatography (ERCP)	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
48. Enrollment (insurance) assistance services	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
49. Employment support services	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
50. Extracorporeal shock wave lithotripter (ESWL)	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
51. Fertility clinic	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
52. Fitness center	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
53. Freestanding outpatient care center	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
54. Geriatric services	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
55. Health fair	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
56. Community health education	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

C. FACILITIES AND SERVICES (continued)

	(1) Owned or provided by my hospital or its subsidiary	(2) Provided by my Health System (in my local community)	(3) Provided through a formal contractual arrangement or joint venture with another provider that is not in my system (in my local community)	(4) Do Not Provide
57. Genetic testing/counseling.....	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
58. Health screenings.....	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
59. Health research.....	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
60. Hemodialysis.....	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
61. HIV/AIDS services.....	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
62. Home health services.....	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
63. Hospice program.....	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
64. Hospital-based outpatient care center services.....	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
65. Housing services				
a. Assisted living.....	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
b. Retirement housing.....	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
c. Supportive housing services.....	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
66. Immunization program	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
67. Indigent care clinic.....	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
68. Linguistic/translation services.....	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
69. Meal delivery services.....	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
70. Mobile health services.....	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
71. Neurological services.....	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
72. Nutrition program.....	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
73. Occupational health services.....	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
74. Oncology services.....	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
75. Orthopedic services.....	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
76. Outpatient surgery.....	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
77. Pain management program.....	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
78. Palliative care program.....	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
79. Palliative care inpatient unit.....	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
80. Patient controlled analgesia (PCA).....	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
81. Patient education center.....	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
82. Patient representative services.....	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
83. Physical rehabilitation services				
a. Assistive technology center.....	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
b. Electrodiagnostic services.....	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
c. Physical rehabilitation outpatient services.....	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
d. Prosthetic and orthotic services.....	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
e. Robot-assisted walking therapy.....	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
f. Simulated rehabilitation environment.....	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
84. Primary care department.....	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
85. Psychiatric services				
a. Psychiatric consultation-liaison services.....	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
b. Psychiatric pediatric care..... (#Beds_____)	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
c. Psychiatric geriatric care..... (#Beds_____)	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
d. Psychiatric education services.....	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
e. Psychiatric emergency services.....	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
f. Psychiatric outpatient services.....	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
g. Psychiatric intensive outpatient services.....	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

C. FACILITIES AND SERVICES (continued)

	(1) Owned or provided by my hospital or its subsidiary	(2) Provided by my Health System (in my local community)	(3) Provided through a formal contractual arrangement or joint venture with another provider that is not in my system (in my local community)	(4) Do Not Provide
85. Psychiatric services (continued)				
h. Psychiatric partial hospitalization services – adult.....	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
i. Psychiatric partial hospitalization services – pediatric.....	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
j. Psychiatric residential treatment – adult.....	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
k. Psychiatric residential treatment – pediatric.....	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
86. Radiology, diagnostic				
a. CT Scanner.....	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
b. Diagnostic radioisotope facility.....	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
c. Electron beam computed tomography (EBCT).....	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
d. Full-field digital mammography (FFDM).....	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
e. Magnetic resonance imaging (MRI).....	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
f. Intraoperative magnetic resonance imaging.....	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
g. Magnetoencephalography (MEG).....	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
h. Multi-slice spiral computed tomography (<64+ slice CT).....	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
i. Multi-slice spiral computed tomography (64+ slice CT).....	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
j. Positron emission tomography (PET).....	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
k. Positron emission tomography/CT (PET/CT).....	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
l. Single photon emission computerized tomography (SPECT).....	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
m. Ultrasound.....	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
87. Radiology, therapeutic				
a. Image-guided radiation therapy (IGRT).....	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
b. Intensity-modulated radiation therapy (IMRT).....	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
c. Proton beam therapy.....	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
d. Shaped beam radiation system.....	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
e. Stereotactic radiosurgery.....	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

4. Closed Physician-Hospital Organization (PHO) ...	_____ %	_____ %	_____ %	_____ %
5. Management Service Organization (MSO)	_____ %	_____ %	_____ %	_____ %
6. Integrated Salary Model.....	_____ %	_____ %	_____ %	_____ %
7. Equity Model	_____ %	_____ %	_____ %	_____ %
8. Foundation	_____ %	_____ %	_____ %	_____ %
9. Other, please specify _____	_____ %	_____ %	_____ %	_____ %

107c. If the hospital owns physician practices, how are they organized?

	Percent	Number of physicians
1. Solo practice	_____ %	_____
2. Single specialty group	_____ %	_____
3. Multi-specialty group	_____ %	_____

107d. Of the physician practices owned by the hospital, what percentage are primary care? _____ %

107e. Of the physician practices owned by the hospital, what percentage are specialty care? _____ %

108. Looking across all the relationships identified in question 107a, what is the total number of physicians (count each physician only once) that are engaged in an arrangement with your hospital that allows for joint contracting with payers or shared responsibility for financial risk or clinical performance between the hospital and physician? (Arrangement may be any type of ownership.)

_____ Number of physicians

109a. Does your hospital participate in any joint venture arrangements with physicians or physician groups?

YES ☐ NO ☐

109b. If your hospital participates in any joint ventures with physicians or physician groups, please indicate which types of services are involved in those joint ventures. (Check all that apply)

1. ☐ Limited service hospital
2. ☐ Ambulatory surgical centers
3. ☐ Imaging centers
4. ☐ Other _____

109c. If you selected '1. Limited service hospital', above, please tell us what type(s) of services are provided. (Check all that apply)

1. ☐ Cardiac
2. ☐ Orthopedic
3. ☐ Surgical
4. ☐ Other _____

109d. Does your hospital participate in joint venture arrangements with organizations other than physician groups?

YES ☐ NO ☐

D. INSURANCE AND ALTERNATIVE PAYMENT MODELS

INSURANCE

1. Does your hospital own or jointly own a health plan?

Yes ☐

No ☐

a. If yes, in what states?

States: _____

2. Does your system own or jointly own a health plan?

Yes ☐

No ☐

a. If yes, in what states?

States: _____

3. Does your hospital/system have a significant partnership with an insurer or an insurance company/health plan?

Yes ☐

No ☐

a. If yes, in what states?

States: _____

4. If yes to 1, 2 and/or 3, please indicate the insurance products and the total medical enrollment. (Check all that apply)

Insurance Products	Hospital	System	JV	Medical Enrollment	New Product	No	Do not know
a. Medicare Advantage	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	_____	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
b. Medicaid Managed Care	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	_____	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
c. Health Insurance Marketplace ("exchange")	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	_____	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
d. Other Individual Market	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	_____	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
e. Small Group	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	_____	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
f. Large Group	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	_____	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
g. Other _____	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	_____	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

If you have answered 'no' to all parts of questions 1, 2 and 3, please skip to question 8.

5. Does your **health plan** make capitated payments to physicians either within or outside of your network for specific groups or enrollees?

a. Physicians within your network Yes ☐ No ☐ Do not know ☐

b. Physicians outside your network Yes ☐ No ☐ Do not know ☐

6. Does your **health plan** make bundled payments to providers in your network or to outside providers?

a. Providers within your network Yes ☐ No ☐ Do not know ☐

b. Providers outside your network Yes ☐ No ☐ Do not know ☐

7. Does your **health plan** offer other shared risk contracts to either providers in your network or to outside providers? (i.e., other than capitation or bundled payment.)

a. Providers within your network Yes ☐ No ☐ Do not know ☐

b. Providers outside your network Yes ☐ No ☐ Do not know ☐

8. Does your hospital or system offer a self-administered health plan for your employees?

Yes ☐ No ☐

D. INSURANCE AND ALTERNATIVE PAYMENT MODELS (continued)

ALTERNATIVE PAYMENT MODELS

9. What percentage of your **hospital's** patient revenue is paid on a capitated basis? _____ %

a. In total, how many enrollees do you serve under capitated contracts? Total enrollees: _____

10. Does your **hospital** participate in any bundled payment arrangements? Yes ☐ Did previously but no longer doing so ☐ No ☐

If yes, please respond to 10a-10c:

a. With which of the following types of payers does your **hospital** have a bundled payment arrangement? (Check all that apply)

1. ☐ Traditional Medicare
2. ☐ A Medicare Advantage plan
3. ☐ A commercial insurance plan including ACA participants, individual, group or employer markets
4. ☐ Medicaid

b. For which of the following medical/surgical conditions does your **hospital** have a bundled payment arrangement? (Check all that apply)

1. ☐ Cardiovascular
2. ☐ Orthopedic
3. ☐ Oncologic
4. ☐ Neurology
5. ☐ Hematology
6. ☐ Gastrointestinal
7. ☐ Pulmonary
8. ☐ Infectious disease
9. ☐ Other, please specify: _____

c. What percentage of the **hospital's** patient revenue is paid through bundled payment arrangements? _____ %

11. Does your **hospital** participate in a bundled payment program involving care settings outside of the hospital (e.g., physician, outpatient, post-acute)? Yes ☐ No ☐

a. If yes, does your **hospital** share upside or downside risk for any of those outside providers? Yes ☐ No ☐

12. What percentage of your **hospital's** patient revenue is paid on a shared risk basis (other than capitated or bundled payments)? _____ %

13. Does your **hospital** contract directly with employers or a coalition of employers to provide care on a capitated, predetermined, or shared risk basis? Yes ☐ No ☐

14. Does your **hospital** have contracts with commercial payers where payment is tied to performance on quality/safety metrics? Yes ☐ No ☐

15a. Has your **hospital** or **health care system** established an accountable care organization (ACO)?

1. ☐ My hospital/system currently leads an ACO (Skip to 15b)
2. ☐ My hospital/system currently participates in an ACO (but is not its leader) (Skip to 18)
3. ☐ My hospital/system previously led or participated in an ACO but is no longer doing so (Skip to 16a)
4. ☐ My hospital/system has never participated or led an ACO (Skip to 17)

15b. With which of the following types of payers does your hospital/system have an accountable care contract? (Check all that apply)

1. ☐ Traditional Medicare (MSSP and NextGen) (Skip to 15c)
2. ☐ A Medicare Advantage plan (Skip to 15d)
3. ☐ A commercial insurance plan (including ACO participants, individual, group, and employer markets) (Skip to 15d)
4. ☐ Medicaid (Skip to 15d)

D. INSURANCE AND ALTERNATIVE PAYMENT MODELS (continued)

ALTERNATIVE PAYMENT MODELS

15c. If you selected Traditional Medicare, in which of the following Medicare programs is your hospital/system participating? (Check all that apply)

- 1. ☐ MSSP Track 1
- 2. ☐ MSSP Track 2
- 3. ☐ MSSP Track 3
- 4. ☐ MSSP Track 1+
- 5. ☐ NextGen
- 6. ☐ Comprehensive ESRD Care

15d. What percentage of your hospital's/system's patients are covered by accountable care contracts? _____ %

15e. What percentage of your hospital's/system's patient revenue came from ACO contracts in 2019? _____ % (Skip to 18)

16a. In what year did your hospital's/system's last ACO contract end? _____

16b. Which of the following types of payers did your hospital/system have an accountable care contract with? (Check all that apply)

- 1. ☐ Traditional Medicare (MSSP and NextGen) (Skip to 16c)
- 2. ☐ A Medicare Advantage plan (Skip to 16d)
- 3. ☐ A commercial insurance plan (including ACA participants, individual, group, and employer markets) (Skip to 16d)
- 4. ☐ Medicaid (Skip to 18)

16c. In which of the following Medicare programs did your hospital/system participate? (Check all that apply)

- 1. ☐ MSSP Track 1
- 2. ☐ MSSP Track 2
- 3. ☐ MSSP Track 3
- 4. ☐ MSSP Track 1+
- 5. ☐ NextGen
- 6. ☐ Pioneer
- 7. ☐ Comprehensive ESRD Care

16d. How many commercial accountable care contracts has your hospital/system previously been a part of? _____

17. Has your hospital/system ever considered participating in an ACO?

- a. ☐ Yes, and we are planning to join one
- b. ☐ Yes, but we are not planning to join one
- c. ☐ No, we have not even considered it

18. Do any hospitals and/or physician groups with your system, or the system itself, plan to participate in any of the following risk arrangements in the next three years? (Check all that apply)

- a. ☐ Shared savings/losses
- b. ☐ Bundled payment
- c. ☐ Capitation
- d. ☐ ACO (ownership)
- e. ☐ ACO (joint venture)
- f. ☐ Health plan (ownership)
- g. ☐ Health plan (joint venture)
- h. ☐ Other, please specify: _____
- i. ☐ None

19. Does your hospital/system have an established medical home program?

a. Hospital

Yes ☐

No ☐

b. System

Yes ☐

No ☐

20. Has your hospital/system established a clinically integrated network?

a. Hospital

Yes ☐

No ☐

b. System

Yes ☐

No ☐

E. TOTAL FACILITY BEDS, UTILIZATION, FINANCES, AND STAFFING

Please report beds, utilization, financial, and staffing data for the 12-month period that is consistent with the period reported on page 1. Report financial data for reporting period only. Include within your operations all activities that are wholly owned by the hospital, including subsidiary corporations regardless of where the activity is physically located. Please do not include within your operations distinct and separate divisions that may be owned by your hospital's parent corporation. If final figures are not available, please estimate. Round to the nearest dollar. Report all personnel who were on the payroll and whose payroll expenses are reported in E3f. (Please refer to specific definitions on pages 28-30.)

Fill out column (2) if hospital owns and operates a nursing home type unit/facility.
Column (1) should be the combined total of hospital plus nursing home unit/facility.

1. BEDS AND UTILIZATION

	(1) Total Facility	(2) Nursing Home Unit/Facility
a. Total licensed beds	_____	_____
b. Beds set up and staffed for use at the end of the reporting period.....	_____	_____
c. Bassinets set up and staffed for use at the end of the reporting period	_____	_____
d. Births (exclude fetal deaths).....	_____	_____
e. Admissions (exclude newborns; include neonatal & swing admissions)	_____	_____
f. Inpatient days (exclude newborns; include neonatal & swing days)	_____	_____
g. Emergency department visits.....	_____	_____
h. Total outpatient visits (include emergency department visits & outpatient surgeries).....	_____	_____
i. Inpatient surgical operations	_____	_____
j. Number of operating rooms	_____	_____
k. Outpatient surgical operations	_____	_____

2. MEDICARE/MEDICAID UTILIZATION

	(1) Total Facility	(2) Nursing Home Unit/Facility
a1. Total Medicare (Title XVIII) inpatient discharges (including Medicare Managed Care) ..	_____	_____
a2. How many Medicare inpatient discharges were Medicare Managed Care?.....	_____	_____
b1. Total Medicare (Title XVIII) inpatient days (including Medicare Managed Care).....	_____	_____
b2. How many Medicare inpatient days were Medicare Managed Care?	_____	_____
c1. Total Medicaid (Title XIX) inpatient discharges (including Medicaid Managed Care)	_____	_____
c2. How many Medicaid inpatient discharges were Medicaid Managed Care?.....	_____	_____
d1. Total Medicaid (Title XIX) inpatient days (including Medicaid Managed Care).....	_____	_____
d2. How many Medicaid inpatient days were Medicaid Managed Care?	_____	_____

3. FINANCIAL

	(1) Total Facility	(2) Nursing Home Unit/Facility
*a. Net patient revenue (treat bad debt as a deduction from gross revenue).....	_____	_____
*b. Tax appropriations	_____	_____
*c. Other operating revenue	_____	_____
*d. Nonoperating revenue	_____	_____
*e. TOTAL REVENUE (add 3a thru 3d)	_____	_____
f. Payroll expense (only)	_____	_____
g. Employee benefits	_____	_____
h. Depreciation expense (for reporting period only).....	_____	_____
i. Interest expense	_____	_____
j. Pharmacy expense	_____	_____
k. Supply expense (other than pharmacy).....	_____	_____
l. All other expenses	_____	_____
m. TOTAL EXPENSES (add 3f thru 3l. Exclude bad debt)	_____	_____
n. Do your total expenses (E3.m) reflect full allocation from your corporate office?	Yes <input type="checkbox"/>	No <input type="checkbox"/>

E. TOTAL FACILITY BEDS, UTILIZATION, FINANCES, AND STAFFING (continued)

4. REVENUE BY TYPE

*a. Total gross inpatient revenue..... .00
 *b. Total gross outpatient revenue..... .00
 *c. Total gross patient revenue00

5. UNCOMPENSATED CARE & PROVIDER TAXES

*a. Bad debt (Revenue forgone at full established rates. Include in gross revenue.)..... .00
 *b. Financial assistance (Includes charity care) (Revenue forgone at full-established rates. Include in gross revenue.)..... .00
 *c. Is your bad debt (5a) reported on the basis of full charges? Yes ☐ No ☐
 *d. Does your state have a provider Medicaid tax/assessment program? Yes ☐ No ☐
 *e. If yes, please report the total gross amount paid into the program.00
 *f. Due to differing accounting standards, please indicate whether the provider tax/assessment amount is included in:
 1. Total expenses Yes ☐ No ☐
 2. Deductions from net patient revenue Yes ☐ No ☐

6. REVENUE BY PAYER (report total facility gross & net figures)

*a. GOVERNMENT

(1) Medicare:

a) Fee for service patient revenue00 .00
 b) Managed care revenue00 .00
 c) Total (a + b)00 .00

(2) Medicaid:

a) Fee for service patient revenue..... .00 .00
 b) Managed care revenue00 .00
 c) Medicaid Graduate Medical Education (GME) payments00
 d) Medicaid Disproportionate Share Hospital Payments (DSH)00
 e) Medicaid Supplemental Payments (not including Medicaid DSH Payments)00
 f) Other Medicaid00
 g) Total (a thru f)00 .00

(3) Other government

..... .00 .00

*b. NONGOVERNMENT

(1) Self-pay

..... .00 .00

(2) Third-party payers:

a) Managed care (includes HMO and PPO)..... .00 .00
 b) Other third-party payers..... .00 .00
 c) Total third-party payers (a + b)00 .00

(3) All other nongovernment

..... .00 .00

*c. TOTAL

..... .00 .00

(Total gross should equal 4c on page 13. Total net should equal 3a on page 12.)

*d. If you report Medicaid Supplemental Payments on line 6.a(2)e, please break the payment total into inpatient and outpatient care.

(1) Inpatient (2) Outpatient
00 .00

*e. If you are a government owned facility (control codes 12-16), does your facility participate in the Medicaid intergovernmental transfer or certified public expenditures program?

Yes ☐ No ☐
 (1) Gross (2) Net
00 .00

*f. If yes, please report gross and net revenue.

Are the financial data on pages 12-14 from your audited financial statement? Yes ☐ No ☐

E. TOTAL FACILITY BEDS, UTILIZATION, FINANCES, AND STAFFING (continued)

7. FINANCIAL PERFORMANCE – MARGIN

- *a. Total Margin _____ %
- *b. Operating Margin _____ %
- *c. EBITDA Margin _____ %
- *d. Medicare Margin _____ %
- *e. Medicaid Margin _____ %

8. FIXED ASSETS

- a. Property, plant and equipment at cost 00
- b. Accumulated depreciation 00
- c. Net property, plant and equipment (a–b) 00
- d. Total gross square feet of your physical plant used for or in support of your healthcare activities.....

9. TOTAL CAPITAL EXPENSES

Include all expenses used to acquire assets, including buildings, remodeling projects, equipment, or property 00

10. INFORMATION TECHNOLOGY AND CYBERSECURITY

- a. IT operating expense 00
- b. IT capital expense 00
- c. Number of employed IT staff (in FTEs)
- d. Number of outsourced IT staff (in FTEs)
- *e. What percentage of your IT budget is spent on security? %

*f. Which of the following cybersecurity measures does your hospital or health system currently deploy?
(check all that apply)

- | | |
|---|--------------------------|
| 1. Annual risk assessment..... | <input type="checkbox"/> |
| 2. Incident response plan | <input type="checkbox"/> |
| 3. Intrusion detection systems | <input type="checkbox"/> |
| 4. Mobile device encryption | <input type="checkbox"/> |
| 5. Mobile device data wiping..... | <input type="checkbox"/> |
| 6. Penetration testing to identify security vulnerabilities | <input type="checkbox"/> |
| 7. Strong password requirements..... | <input type="checkbox"/> |
| 8. Two-factor authentication | <input type="checkbox"/> |

*g. Does your hospital or health system board oversight of risk management and reduction specifically include consideration of cybersecurity risk? Yes ☐ No ☐ Unsure ☐

*h. Does your hospital or health system have cybersecurity insurance? Yes ☐ No ☐ Unsure ☐

*i. Is your hospital or health system participating in cybersecurity information-sharing activities with an outside information sharing and analysis organization to identify threats and vulnerabilities? Yes ☐ No ☐ Unsure ☐

* These data will be treated as confidential and not released without written permission. AHA will however, share these data with your respective state hospital association and, if requested, with your appropriate metropolitan/regional association.

For members of the Catholic Health Association of the United States (CHA), AHA will also share these data with CHA unless there are objections expressed by checking this box ☐

The state/metropolitan/regional associations and CHA may not release these data without written permission from the hospital.

E. TOTAL FACILITY BEDS, UTILIZATION, FINANCES, AND STAFFING (continued)

11. STAFFING

Report full-time (35 hours or more) and part-time (less than 35 hours) personnel who were on the hospital/facility payroll at the end of your reporting period. Include members of religious orders for whom dollar equivalents were reported. Exclude private-duty nurses, volunteers, and all personnel whose salary is financed entirely by outside research grants. Exclude physicians and dentists who are paid on a fee basis. FTE is the total number of hours worked (excluding non-worked hours such as PTO, etc.) by all employees over the full (12 month) reporting period divided by the normal number of hours worked by a full-time employee for that same time period. For example, if your hospital considers a normal workweek for a full-time employee to be 40 hours, a total of 2,080 would be worked over a full year (52 weeks). If the total number of hours worked by all employees on the payroll is 208,000, then the number of Full-Time Equivalents (FTE) is 100 (employees). The FTE calculation for a specific occupational category such as registered nurses is exactly the same. The calculation for each occupational category should be based on the number of hours worked by staff employed in that specific category.

For each occupational category, please report the number of staff vacancies as of the last day of your reporting period. A vacancy is defined as a budgeted staff position which is unfilled as of the last day of the reporting period and for which the hospital is actively seeking either a full-time or part-time permanent replacement. Personnel who work in more than one area should be included only in the category of their primary responsibility and should be counted only once.

	(1) Full-Time (35 hr/wk or more) On Payroll (Headcount)	(2) Part-Time (Less than 35hr/wk) On Payroll (Headcount)	(3) FTE	(4) Vacancies (Headcount)
a. Physicians				
b. Dentists				
c. Medical residents/interns				
d. Dental residents/interns				
e. Other trainees				
f. Registered nurses				
g. Licensed practical (vocational) nurses				
h. Nursing assistive personnel				
i. Radiology technicians				
j. Laboratory technicians				
k. Pharmacists licensed				
l. Pharmacy technicians				
m. Respiratory therapists				
n. All other personnel				
o. Total facility personnel (add 11a through 11n)				

(Total facility personnel (a-n) should include hospital and nursing home type unit/facility, if applicable.)

Nursing home type unit/facility personnel should also be reported separately in 11p and 11q.)

p. Nursing home type unit/facility registered nurses				
q. Total nursing home type unit/facility personnel				

r. For your employed RN FTEs reported above (E.11.f, column 3) please report the number of full-time equivalents who are involved in direct patient care.		Number of direct patient care FTEs
---	--	------------------------------------

s. For your medical residents/interns reported above (E.11c, column 1) please indicate the number of full-time on payroll by specialty.	Full-Time (35 hr/wk or more) On Payroll
1. Primary care (general practitioner, general internal medicine, family practice, general pediatrics, geriatrics)	
2. Other specialties	

E. TOTAL FACILITY BEDS, UTILIZATION, FINANCES, AND STAFFING (continued)

12. PRIVILEGED PHYSICIANS

Report the total number of physicians with privileges at your hospital by type of relationship with the hospital. The sum of the physicians reported in 12a-12g should equal the total number of privileged physicians (12h) in the hospital.

	(1) Total Employed	(2) Total Individual Contract	(3) Total Group Contract	(4) Not Employed or Under Contract	(5) Total Privileged (add columns 1-4)
a. Primary care (general practitioner, general internal medicine, family practice, general pediatrics).....	_____	_____	_____	_____	_____
b. Obstetrics/gynecology	_____	_____	_____	_____	_____
c. Emergency medicine	_____	_____	_____	_____	_____
d. Hospitalist	_____	_____	_____	_____	_____
e. Intensivist	_____	_____	_____	_____	_____
f. Radiologist/pathologist/anesthesiologist	_____	_____	_____	_____	_____
g. Other specialist	_____	_____	_____	_____	_____
h. Total (add 12a-12g)	_____	_____	_____	_____	_____

13. HOSPITALISTS

- a. Do hospitalists provide care for patients in your hospital? (if no, please skip to 14)..... Yes ☐ No ☐ (If yes, please report in E.12d)
- b. If yes, please report the total number of full-time equivalent (FTE) hospitalists _____ FTE

14. INTENSIVISTS

- a. Do intensivists provide care for patients in your hospital? (if no, please skip to 15)..... Yes ☐ No ☐ (If yes, please report in E.12e)
- b. If yes, please report the total number of FTE intensivists and assign them to the following areas. Please indicate whether the intensive care area is closed to intensivists. (Meaning that only intensivists are authorized to care for ICU patients.)

	FTE	Closed to Intensivists
1. Medical-surgical intensive care	_____	<input type="checkbox"/>
2. Cardiac intensive care	_____	<input type="checkbox"/>
3. Neonatal intensive care	_____	<input type="checkbox"/>
4. Pediatric intensive care	_____	<input type="checkbox"/>
5. Other intensive care	_____	<input type="checkbox"/>
6. Total	_____	

15. ADVANCED PRACTICE REGISTERED NURSES/PHYSICIAN ASSISTANTS

- a. Do advanced practice nurses/physician assistants provide care for patients in your hospital? (If no, please skip to 16) YES ☐ NO ☐
- b. If yes, please report the number of full time, part time and FTE advanced practice nurses and physician assistants who provide care for patients in your hospital.
- Advanced Practice Registered Nurses _____ Full-time _____ Part-time _____ FTE
- Physician Assistants _____ Full-time _____ Part-time _____ FTE
- c. If yes, please indicate the type of service provided. (check all that apply)
1. ☐ Primary care 2. ☐ Anesthesia services (Certified registered nurse anesthetist) 3. ☐ Emergency department care
4. ☐ Other specialty care 5. ☐ Patient education 6. ☐ Case management 7. ☐ Other

16. FOREIGN EDUCATED NURSES

- a. Did your facility hire more foreign-educated nurses (including contract or agency nurses) to help fill RN vacancies in 2019 vs. 2018?
- More ☐ Less ☐ Same ☐ Did not hire foreign nurses ☐
- b. From which countries/continents are you recruiting foreign-educated nurses? (check all that apply)
- Africa ☐ South Korea ☐ Canada ☐ Philippines ☐ China ☐ India ☐ Other ☐

F. SUPPLEMENTAL INFORMATION

1a. Does your hospital provide services through satellite outpatient departments? Yes ☐ No ☐

1b. Please indicate the clinical families of outpatient services offered along with the number of hospital outpatient sites by location.

		Number of on-campus sites	Number of off-campus sites
1. Airway endoscopy	<input type="checkbox"/>	_____	_____
2. Ambulatory surgery	<input type="checkbox"/>	_____	_____
3. Blood product exchange	<input type="checkbox"/>	_____	_____
4. Cardiac/pulmonary rehabilitation	<input type="checkbox"/>	_____	_____
5. Diagnostic/screening test and related procedures	<input type="checkbox"/>	_____	_____
6. Drug administration and clinical oncology	<input type="checkbox"/>	_____	_____

2. Does the hospital participate in a group purchasing arrangement? YES ☐ NO ☐
If yes, please provide the name, city, and state of the group purchasing organization(s).

Name: _____ City: _____ State: _____
 Name: _____ City: _____ State: _____
 Name: _____ City: _____ State: _____

3. Does the hospital purchase medical/surgical supplies directly through a distributor? YES ☐ NO ☐
If yes, please provide the name of the distributor(s).

Name: _____
 Name: _____
 Name: _____

F. SUPPLEMENTAL INFORMATION (continued)

4. If your hospital hired RNs during the reporting period, how many were new graduates from nursing schools? _____

5. Describe the extent of your hospital's current partnerships with the following types of organizations for community or population health improvement initiatives.

	Not Involved	Collaboration	Formal Alliance
a. Health care providers outside your system	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
b. Local or state public health organizations	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
c. Local or state human/social service organizations	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
d. Other local or state government	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
e. Non-profit organizations	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
f. Faith-based organizations	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
g. Health insurance companies	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
h. Schools	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
i. Local businesses or chambers of commerce	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
j. National businesses	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
k. Other (list) _____	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

6. Does your hospital have an established patient and family advisory council that meets regularly to actively engage the perspectives of patients and families? Yes ☐ No ☐

7. Does your hospital have a policy or guidelines that facilitate unrestricted access, 24 hours a day, to hospitalized patients by family and other partners in care according to patient preference?

- ☐ Exists across all units
- ☐ Exists across some units
- ☐ Does not exist in any hospital unit

Use this space for comments or to elaborate on any information supplied on this survey. Refer to the response by page, section and item name

This image shows a single sheet of white paper with horizontal blue or grey ruling lines. The lines are evenly spaced and run across the width of the page. There is no handwriting or other markings on the paper.

As declared previously, hospital specific revenue data are treated as confidential. AHA's policy is not to release these data without written permission from your institution. The AHA will however, share these data with your respective state hospital association and if requested with your appropriate metropolitan/regional association.

On occasion, the AHA is asked to provide these data to external organizations, both public and private, for their use in analyzing crucial health care policy or research issues. The AHA is requesting your permission to allow us to release your confidential data to those requests that we consider legitimate and worthwhile. In every instance of disclosure, the receiving organization will be prohibited from releasing hospital specific information.

Please indicate below whether or not you agree to these types of disclosure:

- [] I hereby grant AHA permission to release my hospital's revenue data to external users that the AHA determines have a legitimate and worthwhile need to gain access to these data subject to the user's agreement with the AHA not to release hospital specific information.

Chief Executive Officer

Date

- [] I do not grant AHA permission to release my confidential data.

Chief Executive Officer

Date

With the exception of restrictions protecting certain confidential information, the results of this survey may be publically released.

Does your hospital or health system have an Internet or Homepage address? Yes ☐ No ☐

If yes, please provide the address: http:// _____

Thank you for your cooperation in completing this survey. If there are any questions about your responses to this survey, who should be contacted?

NOTE: PLEASE PHOTOCOPY THE INFORMATION FOR YOUR HOSPITAL FILE BEFORE RETURNING THE ORIGINAL FORM TO THE AMERICAN HOSPITAL ASSOCIATION. ALSO, PLEASE FORWARD A PHOTOCOPY OF THE COMPLETED QUESTIONNAIRE TO YOUR STATE HOSPITAL ASSOCIATION.

THANK YOU

SECTION A REPORTING PERIOD Instructions

INSTRUCTIONS AND DEFINITIONS FOR THE 2018 ANNUAL SURVEY OF HOSPITALS.

For purposes of this survey, a hospital is defined as the organization or corporate entity licensed or registered as a hospital by a state to provide diagnostic and therapeutic patient services for a variety of medical conditions, both surgical and nonsurgical.

1. **Reporting period used (beginning and ending date):** Record the beginning and ending dates of the reporting period in an eight-digit number: for example, January 1, 2019 should be shown as 01/01/2019. Number of days should equal the time span between the two dates that the hospital was open. If you are reporting for less than 365 days, utilization and finances should be presented for days reported only.
2. **Were you in operation 12 full months at the end of your reporting period?** If you are reporting for less than 365 days, utilization and finances should be presented for days reported only.
3. **Number of days open during reporting period:** Number of days should equal the time span between the two dates that the hospital was open.

SECTION B ORGANIZATIONAL STRUCTURE Instructions and Definitions

1. CONTROL

Check the box to the left of the type of organization that is responsible for establishing policy for overall operation of the hospital.

Government, nonfederal.

State. Controlled by an agency of state government.

County. Controlled by an agency of county government.

City. Controlled by an agency of municipal government.

City-County. Controlled jointly by agencies of municipal and county governments.

Hospital district or authority. Controlled by a political subdivision of a state, county, or city created solely for the purpose of establishing and maintaining medical care or health-related care institutions.

Nongovernment, not for profit. Controlled by not-for-profit organizations, including religious organizations (Catholic hospitals, for example), community hospitals, cooperative hospitals, hospitals operated by fraternal societies, and so forth.

Investor owned, for profit. Controlled on a for profit basis by an individual, partnership, or a profit making corporation.

Government, federal. Controlled by an agency or department of the federal government.

2. SERVICE

Indicate the ONE category that best describes the type of service that your hospital provides to the majority of patients.

General medical and surgical. Provides diagnostic and therapeutic services to patients for a variety of medical conditions, both surgical and nonsurgical.

Hospital unit of an institution. Provides diagnostic and therapeutic services to patients in an institution.

Hospital unit within a facility for persons with intellectual disabilities. Provides diagnostic and therapeutic services to persons with intellectual disabilities.

Surgical. An acute care specialty hospital where 2/3 or more of its inpatient claims are for surgical/diagnosis related groups.

Psychiatric. Provides diagnostic and therapeutic services to patients with mental or emotional disorders.

Tuberculosis and other respiratory diseases. Provides medical care and rehabilitative services to patients for whom the primary diagnosis is tuberculosis or other respiratory diseases.

Cancer. Provides medical care to patients for whom the primary diagnosis is cancer.

Heart. Provides diagnosis and treatment of heart disease.

Obstetrics and gynecology. Provides medical and surgical treatment to pregnant women and to mothers following delivery. Also provides diagnostic and therapeutic services to women with diseases or disorders of the reproductive organs.

Eye, ear, nose, and throat. Provides diagnosis and treatment of diseases and injuries of the eyes, ears, nose, and throat.

Rehabilitation. Provides a comprehensive array of restoration services for people with disabilities and all support services necessary to help them attain their maximum functional capacity.

Orthopedic. Provides corrective treatment of deformities, diseases, and ailments of the locomotive apparatus, especially affecting the limbs, bones, muscles, and joints.

Chronic disease. Provides medical and skilled nursing services to patients with long-term illnesses who are not in an acute phase, but who require an intensity of services not available in nursing homes.

Intellectual disabilities. Provides health-related care on a regular basis to patients with developmental or intellectual disabilities who cannot be treated in a skilled nursing unit.

Acute long-term care hospital. Provides high acuity interdisciplinary services to medically complex patients that require more intensive recuperation and care than can be provided in a typical nursing facility.

Alcoholism and other chemical dependency. Provides diagnostic and therapeutic services to patients with alcoholism or other drug dependencies.

3. OTHER

a. **Children admissions.** A hospital whose primary focus is the health and treatment of children and adolescents.

b. **Subsidiary.** A company that is wholly controlled by another or one that is more than 50% owned by another organization.

c. **Contract managed.** General day-to-day management of an entire organization by another organization under a formal contract. Managing organization reports directly to the board of trustees or owners of the managed organization; managed organization retains total legal responsibility and ownership of the facility's assets and liabilities.

d. **Physician group.** Cooperative practice of medicine by a group of physicians, each of whom as a rule specializes in some particular field.

f. **Co-located hospitals.** Co-location refers to two or more entities, with separate CMS Certification Numbers occupying the same building, or conjoined buildings.

SECTION C FACILITIES AND SERVICES Definitions

Owned/provided by the hospital or its subsidiary. All patient revenues, expenses and utilization related to the provision of the service are reflected in the hospital's statistics reported elsewhere in this survey.

Provided by my health system (in my local community). Another health care provider in the same system as your hospital provides the service and patient revenue, expenses, and utilization related to the provision of the service are recorded at the point where the service was provided and would not be reflected in your hospital's statistics reported elsewhere in this survey. (A system is a corporate body that owns, leases, religiously sponsors and/or manages health providers)

Provided through a partnership or joint venture with another provider that is not in my system. All patient revenues and utilization related to the provision of the service are recorded at the site where the service was provided and would not be reflected in your hospital statistics reported elsewhere in this survey. (A joint venture is a contractual arrangement between two or more parties forming an unincorporated business. The participants in the arrangement remain independent and separate outside of the venture's purpose.)

1. **General medical-surgical care.** Provides acute care to patients in medical and surgical units on the basis of physicians' orders and approved nursing care plans.
 2. **Pediatric medical-surgical care.** Provides acute care to pediatric patients on the basis of physicians' orders and approved nursing care plans.
 3. **Obstetrics.** For service owned or provided by the hospital, level should be designated: (1) unit provides services for uncomplicated maternity and newborn cases; (2) unit provides services for uncomplicated cases, the majority of complicated problems, and special neonatal services; and (3) unit provides services for all serious illnesses and abnormalities and is supervised by a full-time maternal/fetal specialist.
 4. **Medical-surgical intensive care.** Provides patient care of a more intensive nature than the usual medical and surgical care, on the basis of physicians' orders and approved nursing care plans. These units are staffed with specially trained nursing personnel and contain monitoring and specialized support equipment for patients who because of shock, trauma or other life-threatening conditions require intensified comprehensive observation and care. Includes mixed intensive care units.
 5. **Cardiac intensive care.** Provides patient care of a more specialized nature than the usual medical and surgical care, on the basis of physicians' orders and approved nursing care plans. The unit is staffed with specially trained nursing personnel and contains monitoring and specialized support or treatment equipment for patients who, because of heart seizure, open-heart surgery, or other life-threatening conditions, require intensified, comprehensive observation and care. May include myocardial infarction, pulmonary care, and heart transplant units.
 6. **Neonatal intensive care.** A unit that must be separate from the newborn nursery providing intensive care to all sick infants including those with the very lowest birth weights (less than 1500 grams). NICU has potential for providing mechanical ventilation, neonatal surgery, and special care for the sickest infants born in the hospital or transferred from another institution. A full-time neonatologist serves as director of the NICU.
 7. **Neonatal intermediate care.** A unit that must be separate from the normal newborn nursery and that provides intermediate and/or recovery care and some specialized services, including immediate resuscitation, intravenous therapy, and capacity for prolonged oxygen therapy and monitoring.
 8. **Pediatric intensive care.** Provides care to pediatric patients that is of a more intensive nature than that usually provided to pediatric Patients. The unit is staffed with specially trained personnel and contains monitoring and specialized support equipment for treatment of patients who, because of shock, trauma, or other life-threatening conditions, require intensified, comprehensive observation and care.
 9. **Burn care.** Provides care to severely burned patients. Severely burned patients are those with any of the following: (1) second-degree burns of more than 25% total body surface area for adults or 20% total body surface area for children; (2) third-degree burns of more than 10% total body surface area; (3) any severe burns of the hands, face, eyes, ears, or feet; or (4) all inhalation injuries, electrical burns, complicated burn injuries involving fractures and other major traumas, and all other poor risk factors.
 10. **Other special care.** Provides care to patients requiring care more intensive than that provided in the acute area, yet not sufficiently intensive to require admission to an intensive care unit. Patients admitted to this area are usually transferred here from an intensive care unit once their condition has improved. These units are sometimes referred to as definitive observation, step-down or progressive care units.
 11. **Other intensive care.** A specially staffed, specialty equipped, separate section of a hospital dedicated to the observation, care, and treatment of patients with life-threatening illnesses, injuries, or complications from which recovery is possible. It provides special expertise and facilities for the support of vital function and utilizes the skill of medical nursing and other staff experienced in the management of these problems.
 12. **Physical rehabilitation.** Provides care encompassing a comprehensive array of restoration services for people with disabilities and all support services necessary to help patients attain their maximum functional capacity.
 13. **Alcoholism-chemical dependency care.** Provides diagnosis and therapeutic services to patients with alcoholism or other drug dependencies. Includes care for inpatient/residential treatment for patients whose course of treatment involves more intensive care than provided in an outpatient setting or where patient requires supervised withdrawal.
 14. **Psychiatric care.** Provides acute or long-term care to patients with mental or emotional disorders, including patients admitted for diagnosis and those admitted for treatment of psychiatric disorders, on the basis of physicians' orders and approved nursing care plans. Long-term care may include intensive supervision to persons with chronic/severe mental illness.
 15. **Skilled nursing care.** Provides non-acute medical and skilled nursing care services, therapy, and social services under the supervision of a licensed registered nurse on a 24-hour basis.
 16. **Intermediate nursing care.** Provides health-related services (skilled nursing care and social services) to residents with a variety of physical conditions or functional disabilities. These residents do not require the care provided by a hospital or skilled nursing facility, but do need supervision and support services.
 17. **Acute long-term care.** Provides specialized acute hospital care to medically complex patients who are critically ill, have multisystem complications and/or failure, and require hospitalization averaging 25 days, in a facility offering specialized treatment programs and therapeutic intervention on a 24-hour/7 days a week basis.
 18. **Other long-term care.** Provision of long-term care other than skilled nursing care or intermediate care for those who do not require daily medical or nursing services, but may require some assistance in the activities of daily living. This can include residential care, elderly care, or care facilities for those with developmental or intellectual disabilities.
 19. **Other care.** (specify) Any type of care other than those listed above.
- The sum of the beds reported in Section C 1-19 should equal what you have reported in Section E(1b) for beds set up and staffed.**
20. **Adult day care program.** Program providing supervision, medical and psychological care, and social activities for older adults who live at home or in another family setting, but cannot be alone or prefer to be with others during the day. May include intake assessment, health monitoring, occupational therapy, personal care, noon meal, and transportation services.
 21. **Airborne infection isolation room.** A single-occupancy room for patient care where environmental factors are controlled in an effort to minimize the transmission of those infectious agents, usually spread person to person by droplet nuclei associated with coughing and inhalation. Such rooms typically have specific ventilation requirements for controlled ventilation, air pressure and filtration.

22. **Alcoholism-chemical dependency care services.**
 - a. **Alcoholism-chemical dependency pediatric care services.** Provides diagnosis and therapeutic services to pediatric patients with alcoholism or other drug dependencies. Includes care for inpatient/residential treatment for patients whose course of treatment involves more intensive care than provided in an outpatient setting or where patient requires supervised withdrawal. Please report staffed beds. The beds reported here should also be reported under 13. alcoholism-chemical dependency care. This line item should be a breakout of the pediatric beds only.
 - b. **Alcoholism-chemical dependency outpatient services.** Organized hospital services that provide medical care and/or rehabilitative treatment services to outpatients for whom the primary diagnosis is alcoholism or other chemical dependency.
 - c. **Alcoholism-chemical dependency partial hospitalization services.** Organized hospital services providing intensive day/evening outpatient services of three hour or more duration, distinguished from other outpatient visits of one hour.
23. **Alzheimer center.** Facility that offers care to persons with Alzheimer's disease and their families through an integrated program of clinical services, research, and education.
24. **Ambulance services.** Provision of ambulance service to the ill and injured who require medical attention on a scheduled and unscheduled basis.
25. **Air ambulance services.** Aircraft and especially a helicopter equipped for transporting the injured or sick. Most air ambulances carry critically ill or injured patients, whose condition could rapidly change for the worse.
26. **Ambulatory surgery center.** Facility that provides care to patients requiring surgery that are admitted and discharged on the same day. Ambulatory surgery centers are distinct from same day surgical units within the hospital outpatient departments for purposes of Medicare payment.
27. **Arthritis treatment center.** Specifically equipped and staffed center for the diagnosis and treatment of arthritis and other joint disorders.
28. **Auxiliary.** A volunteer community organization formed to assist the hospital in carrying out its purpose and to serve as a link between the institution and the community.
29. **Bariatric/weight control services.** The medical practice of weight reduction.
30. **Birth room/LDR room/LDRP room.** A single-room type of maternity care with a more homelike setting for families than the traditional three-room unit (labor/delivery/recovery) with a separate postpartum area. A birth room combines labor and delivery in one room. An LDR room accommodates three stages in the birthing process—labor, delivery, and recovery. An LDRP room accommodates all four stages of the birth process—labor, delivery, recovery, and postpartum.
31. **Blood donor center.** A facility that performs, or is responsible for the collection, processing, testing or distribution of blood and components.
32. **Breast cancer screening/mammograms.** Mammography screening - The use of breast x-ray to detect unsuspected breast cancer in asymptomatic women. Diagnostic mammography - The x-ray imaging of breast tissue in symptomatic women who are considered to have a substantial likelihood of having breast cancer already.
33. **Cardiology and cardiac surgery services.** Services which include the diagnosis and treatment of diseases and disorders involving the heart and circulatory system.
 - a-b. **Cardiology services.** An organized clinical service offering diagnostic and interventional procedures to manage the full range of heart conditions.
 - c-d. **Diagnostic catheterization.** (also called coronary angiography or coronary arteriography) is used to assist in diagnosing complex heart conditions. Cardiac angiography involves the insertion of a tiny catheter into the artery in the groin then carefully threading the catheter up into the aorta where the coronary arteries originate. Once the catheter is in place, a dye is injected which allows the cardiologist to see the size, shape, and distribution of the coronary arteries. These images are used to diagnose heart disease and to determine, among other things, whether or not surgery is indicated.
 - e-f. **Interventional cardiac catheterization.** Nonsurgical procedure that utilizes the same basic principles as diagnostic catheterization and then uses advanced techniques to improve the heart's function. It can be a less invasive alternative to heart surgery.
 - g-h. **Cardiac surgery.** Includes minimally invasive procedures that include surgery done with only a small incision or no incision at all, such as through a laparoscope or an endoscope and more invasive major surgical procedures that include open chest and open heart surgery
 - i-j. **Cardiac electrophysiology.** Evaluation and management of patients with complex rhythm or conduction abnormalities, including diagnostic testing, treatment of arrhythmias by catheter ablation or drug therapy, and pacemaker/defibrillator implantation and follow-up.
 - k. **Cardiac rehabilitation.** A medically supervised program to help heart patients recover quickly and improve their overall physical and mental functioning. The goal is to reduce risk of another cardiac event or to keep an already present heart condition from getting worse. Cardiac rehabilitation programs include: counseling to patients, an exercise program, helping patients modify risk factors such as smoking and high blood pressure, providing vocational guidance to enable the patient to return to work, supplying information on physical limitations and lending emotional support.
34. **Case management.** A system of assessment, treatment planning, referral and follow-up that ensures the provision of comprehensive and continuous services and the coordination of payment and reimbursement for care.
35. **Chaplaincy/pastoral care services.** A service ministering religious activities and providing pastoral counseling to patients, their families, and staff of a health care organization.
36. **Chemotherapy.** An organized program for the treatment of cancer by the use of drugs or chemicals.
37. **Children's wellness program.** A program that encourages improved health status and a healthful lifestyle of children through health education, exercise, nutrition and health promotion.
38. **Chiropractic services.** An organized clinical service including spinal manipulation or adjustment and related diagnostic and therapeutic services.
39. **Community outreach.** A program that systematically interacts with the community to identify those in need of services, alerting persons and their families to the availability of services, locating needed services, and enabling persons to enter the service delivery system
40. **Complementary and alternative medicine services.** Organized hospital services or formal arrangements to providers that provide care or treatment not based solely on traditional western allopathic medical teachings as instructed in most U.S. medical schools. Includes any of the following: acupuncture, chiropractic, homeopathy, osteopathy, diet and lifestyle changes, herbal medicine, massage therapy, etc.
41. **Computer assisted orthopedic surgery (CAOS).** Orthopedic surgery using computer technology, enabling three-dimensional graphic models to visualize a patient's anatomy.
42. **Crisis prevention.** Services provided in order to promote physical and mental wellbeing and the early identification of disease and ill health prior to the onset and recognition of symptoms so as to permit early treatment.
43. **Dental services.** An organized dental service or dentists on staff, not necessarily involving special facilities, providing dental or oral services to inpatients or outpatients.
44. **Diabetes prevention program.** Program to prevent or delay the onset of type 2 diabetes by offering evidence-based lifestyle changes based on research studies, which showed modest behavior changes helped individuals with prediabetes reduce their risk of developing type 2 diabetes.
45. **Emergency services.** Health services that are provided after the onset of a medical condition that manifests itself by symptoms of sufficient severity, including severe pain, that the absence of immediate medical attention could reasonably be expected by a prudent layperson, who possesses an average knowledge of health and medicine, to result in placing the patient's health in serious jeopardy.
 - a. **On-campus emergency department.** Hospital facilities for the provision of unscheduled outpatient services to patients whose conditions require immediate care.
 - b. **Off-campus emergency department.** A facility owned and operated by the hospital but physically separate from the hospital for the provision of unscheduled outpatient services to patients whose conditions require immediate care. A freestanding ED is not physically connected to a hospital but has all the necessary emergency staffing and equipment on site.

- c. Pediatric emergency department.** A recognized hospital emergency department capable of identifying those pediatric patients who are critically ill or injured, stabilizing pediatric patients, including the management of airway, breathing and circulation and providing an appropriate transfer to a definitive care facility.
- d. Trauma center (certified).** A facility to provide emergency and specialized intensive care to critically ill and injured patients. For service owned or provided by the hospital, please specify trauma level. Level 1: A regional resource trauma center, which is capable of providing total care for every aspect of injury and plays a leadership role in trauma research and education. Level 2: A community trauma center, which is capable of providing trauma care to all but the most severely injured patients who require highly specialized care. Level 3: A rural trauma hospital, which is capable of providing care to a large number of injury victims and can resuscitate and stabilize more severely injured patients so that they can be transported to level 1 or 2 facilities.
- 46. Enabling services.** A program that is designed to help the patient access health care services by offering any of the following: transportation services and/or referrals to local social services agencies.
- 47. Endoscopic services.**
- a. Optical colonoscopy.** An examination of the interior of the colon using a long, flexible, lighted tube with a small built-in camera.
 - b. Endoscopic ultrasound.** Specially designed endoscope that incorporates an ultrasound transducer used to obtain detailed images of organs in the chest and abdomen. The endoscope can be passed through the mouth or the anus. When combined with needle biopsy the procedure can assist in diagnosis of disease and staging of cancer.
 - c. Ablation of Barrett's esophagus.** Premalignant condition that can lead to adenocarcinoma of the esophagus. The nonsurgical ablation of premalignant tissue in Barrett's esophagus by the application of thermal energy or light through an endoscope passed from the mouth into the esophagus.
 - d. Esophageal impedance study.** A test in which a catheter is placed through the nose into the esophagus to measure whether gas or liquids are passing from the stomach into the esophagus and causing symptoms.
 - e. Endoscopic retrograde cholangiopancreatography (ERCP).** A procedure in which a catheter is introduced through an endoscope into the bile ducts and pancreatic ducts. Injection of contrast material permits detailed x-ray of these structures. The procedure is used diagnostically as well as therapeutically to relieve obstruction or remove stones.
- 48. Enrollment (insurance) assistance services.** A program that provides enrollment assistance for patients who are potentially eligible for public health insurance programs such as Medicaid, State Children's Health Insurance, or local/state indigent care programs. The specific services offered could include explanation of benefits, assist applicants in completing the application and locating all relevant documents, conduct eligibility interviews, and/or forward applications and documentation to state/local social service or health agency.
- 49. Employment support services.** Services designed to support individuals with significant disabilities to seek and maintain employment.
- 50. Extracorporeal shock wave lithotripter (ESWL).** A medical device used for treating stones in the kidney or urethra. The device disintegrates kidney stones noninvasively through the transmission of acoustic shock waves directed at the stones.
- 51. Fertility clinic.** A specialized program set in an infertility center that provides counseling and education as well as advanced reproductive techniques such as: injectable therapy, reproductive surgeries, treatment for endometriosis, male factor infertility, tubal reversals, in vitro fertilization (IVF), donor eggs, and other such services to help patients achieve successful pregnancies.
- 52. Fitness center.** Provides exercise, testing, or evaluation programs and fitness activities to the community and hospital employees.
- 53. Freestanding outpatient care center.** A facility owned and operated by the hospital that is physically separate from the hospital and provides various medical treatments and diagnostic services on an outpatient basis only. Laboratory and radiology services are usually available.
- 54. Geriatric services.** The branch of medicine dealing with the physiology of aging and the diagnosis and treatment of disease affecting the aged. Services could include: adult day care; Alzheimer's diagnostic-assessment services; comprehensive geriatric assessment; emergency response system; geriatric acute care unit; and/or geriatric clinics.
- 55. Health fair.** Community health education events that focus on the prevention of disease and promotion of health through such activities as audiovisual exhibits and free diagnostic services.
- 56. Community health education.** Education that provides health information to individuals and populations as well as support for personal, family and community health decisions with the objective of improving health status.
- 57. Genetic testing/counseling.** A service equipped with adequate laboratory facilities and directed by a qualified physician to advise patients on potential genetic diagnosis of vulnerabilities to inherited diseases. A genetic test is the analysis of human DNA, RNA, chromosomes, proteins, and certain metabolites in order to detect heritable disease-related genotypes, mutations, phenotypes, or karyotypes for clinical purposes. Genetic tests can have diverse purposes, including the diagnosis of genetic diseases in newborns, children, and adults; the identification of future health risks; the prediction of drug responses; and the assessment of risks to future children.
- 58. Health screening.** A preliminary procedure such as a test or examination to detect the most characteristic sign or signs of a disorder that may require further investigation.
- 59. Health research.** Organized hospital research program in any of the following areas: basic research, clinical research, community health research, and/or research on innovative health care delivery.
- 60. Hemodialysis.** Provision of equipment and personnel for the treatment of renal insufficiency on an inpatient or outpatient basis.
- 61. HIV/AIDS services.** Diagnosis, treatment, continuing care planning, and counseling services for HIV/AIDS patients and their families. Could include: HIV/AIDS unit, special unit or designated team, general inpatient care, or specialized outpatient program.
- 62. Home health services.** Service providing nursing, therapy, and health-related homemaker or social services in the patient's home.
- 63. Hospice.** A program providing palliative care, chiefly medical relief of pain and supportive services, addressing the emotional, social, financial, and legal needs of terminally ill patients and their families. Care can be provided in a variety of settings, both inpatient and at home.
- 64. Hospital-based outpatient care center-services.** Organized hospital health care services offered by appointment on an ambulatory basis. Services may include outpatient surgery, examination, diagnosis, and treatment of a variety of medical conditions on a nonemergency basis, and laboratory and other diagnostic testing as ordered by staff or outside physician referral.
- 65a. Assisted living.** A special combination of housing, supportive services, personalized assistance and health care designed to respond to the individual needs of those who need help in activities of daily living and instrumental activities of daily living. Supportive services are available, 24 hours a day, to meet scheduled and unscheduled needs, in a way that promotes maximum independence and dignity for each resident and encourages the involvement of a resident's family, neighbor and friends.
- 65b. Retirement housing.** A facility that provides social activities to senior citizens, usually retired persons, who do not require health care but some short-term skilled nursing care may be provided. A retirement center may furnish housing and may also have acute hospital and long-term care facilities, or it may arrange for acute and long-term care through affiliated institutions.
- 65c. Supportive housing services.** A hospital program that provides decent, safe, affordable, community-based housing with flexible support services designed to help the individual or family stay housed and live a more productive life in the community.
- 66. Immunization program.** Program that plans, coordinates and conducts immunization services in the community.
- 67. Indigent care clinic.** Health care services for uninsured and underinsured persons where care is free of charge or charged on a sliding scale. This would include "free clinics" staffed by volunteer practitioners, but could also be staffed by employees with the sponsoring health care organization subsidizing the cost of service.
- 68. Linguistic/translation services.** Services provided by the hospital designed to make health care more accessible to non-English speaking patients and their physicians.

69. **Meal delivery services.** A hospital sponsored program which delivers meals to people, usually the elderly, who are unable to prepare their own meals. Low cost, nutritional meals are delivered to individuals' homes on a regular basis.
70. **Mobile health services.** Vans and other vehicles used for delivery of primary care services.
71. **Neurological services.** Services provided by the hospital dealing with the operative and nonoperative management of disorders of the central, peripheral, and autonomic nervous systems.
72. **Nutrition programs.** Services within a health care facility which are designed to provide inexpensive, nutritionally sound meals to patients.
73. **Occupational health services.** Includes services designed to protect the safety of employees from hazards in the work environment.
74. **Oncology services.** Inpatient and outpatient services for patients with cancer, including comprehensive care, support and guidance in addition to patient education and prevention, chemotherapy, counseling and other treatment methods.
75. **Orthopedic services.** Services provided for the prevention or correction of injuries or disorders of the skeletal system and associated muscles, joints and ligaments.
76. **Outpatient surgery.** Scheduled surgical services provided to patients who do not remain in the hospital overnight. The surgery may be performed in operating suites also used for inpatient surgery, specially designated surgical suites for outpatient surgery, or procedure rooms within an outpatient care facility.
77. **Pain management program.** A recognized clinical service or program providing specialized medical care, drugs or therapies for the management of acute or chronic pain and other distressing symptoms, administered by specially trained physicians and other clinicians, to patients suffering from acute illnesses of diverse causes.
78. **Palliative care program.** An organized program providing specialized medical care, drugs or therapies for the management of acute or chronic pain and/or the control of symptoms administered by specially trained physicians and other clinicians; and supportive care services, such as counseling on advanced directives, spiritual care, and social services, to patients with advanced diseases and their families.
79. **Palliative care inpatient unit.** An inpatient palliative care ward is a physically discreet, inpatient nursing unit where the focus is palliative care. The patient care focus is on symptom relief for complex patients who may be continuing to undergo primary treatment. Care is delivered by palliative medicine specialists.
80. **Patient controlled analgesia (PCA).** Intravenously administered pain medicine under the patient's control. The patient has a button on the end of a cord than can be pushed at will, whenever more pain medicine is desired. This button will only deliver more pain medicine at predetermined intervals, as programmed by the doctor's order.
81. **Patient education center.** Written goals and objectives for the patient and/or family related to therapeutic regimens, medical procedures, and self-care.
82. **Patient representative services.** Organized hospital services providing personnel through whom patients and staff can seek solutions to institutional problems affecting the delivery of high quality care and services.
83. **Physical rehabilitation services.** Program providing medical, health-related, therapy, social, and/or vocational services to help people with disabilities attain or retain their maximum functional capacity.
 - a. **Assistive technology center.** A program providing access to specialized hardware and software with adaptations allowing individuals greater independence with mobility, dexterity, or increased communication options.
 - b. **Electrodiagnostic services.** Diagnostic testing services for nerve and muscle function such as nerve conduction studies and needle electromyography.
 - c. **Physical rehabilitation outpatient services.** Outpatient program providing medical, health-related, therapy, social, and/or vocational services to help people with disabilities attain or retain their maximum functional capacity.
 - d. **Prosthetic and orthotic services.** Services providing comprehensive prosthetic and orthotic evaluation, fitting, and training.
 - e. **Robot-assisted walking therapy.** A form of physical therapy that uses a robotic device to assist patients who are relearning how to walk.
 - f. **Simulated rehabilitation environment.** Rehabilitation focused on retraining functional skills in a contextually appropriate environment (simulated home and community settings) or in a traditional setting (gymnasium) using motor learning principles.
84. **Primary care department.** A unit or clinic within the hospital that provides primary care services (e.g., general pediatric care, general internal medicine, family practice, gynecology) through hospital-salaried medical and/or nursing staff, focusing on evaluating and diagnosing medical problems and providing medical treatment on an outpatient basis.
85. **Psychiatric services.** Services provided by the hospital that offer immediate initial evaluation and treatment to patients with mental or emotional disorders.
 - a. **Psychiatric consultation-liaison services.** Provides organized psychiatric consultation/liaison services to nonpsychiatric hospital staff and/or departments on psychological aspects of medical care that may be generic or specific to individual patients.
 - b. **Psychiatric pediatric services.** The branch of medicine focused on the diagnosis, treatment and prevention of mental, emotional and behavioral disorders in pediatric patients. Please report the number of staffed beds. The beds reported here should be included in the staffed bed count for 14 psychiatric care.
 - c. **Psychiatric geriatric services.** Provides care to elderly patients with mental or emotional disorders, including those admitted for diagnosis and those admitted for treatment. Please report the number of staffed beds. The beds reported here should be included in the staffed bed count for 14 psychiatric care.
 - d. **Psychiatric education services.** Provides psychiatric educational services to community agencies and workers such as schools, police, courts, public health nurses, welfare agencies, clergy, and so forth. The purpose is to expand the mental health knowledge and competence of personnel not working in the mental health field and to promote good mental health through improved understanding, attitudes, and behavioral patterns.
 - e. **Psychiatric emergency services.** Services of facilities available on a 24-hour basis to provide immediate unscheduled outpatient care, diagnosis, evaluation, crisis intervention, and assistance to persons suffering acute emotional or mental distress.
 - f. **Psychiatric outpatient services.** Provides medical care, including diagnosis and treatment, of psychiatric outpatients.
 - g. **Psychiatric intensive outpatient services.** A prescribed course of treatment in which the patient receives outpatient care no less than three times a week (which might include more than one service/day)
 - h-i. **Psychiatric partial hospitalization program – adult/pediatric.** Organized hospital services providing intensive day/evening outpatient services of three hours or more duration, distinguished from other outpatient visits of one hour.
 - j-k. **Psychiatric residential treatment – adult/pediatric.** Overnight psychiatric care in conjunction with an intensive treatment program in a setting other than a hospital.
86. **Radiology, diagnostic.** The branch of radiology that deals with the utilization of all modalities of radiant energy in medical diagnoses and therapeutic procedures using radiologic guidance. This includes, but is not restricted to, imaging techniques and methodologies utilizing radiation emitted by x-ray tubes, radionuclides, and ultrasonographic devices and the radiofrequency electromagnetic radiation emitted by atoms.
 - a. **CT Scanner.** Computed tomographic scanner for head or whole body scans.
 - b. **Diagnostic radioisotope facility.** The use of radioactive isotopes (Radiopharmaceuticals) as tracers or indicators to detect an abnormal condition or disease.
 - c. **Electron beam computed tomography (EBCT).** A high tech computed tomography scan used to detect coronary artery disease by measuring coronary calcifications. This imaging procedure uses electron beams which are magnetically steered to produce a visual of the coronary artery and the images are produced faster than conventional CT scans.

- d. **Full-field digital mammography (FFDM).** Combines the x-ray generators and tubes used in analog screen-film mammography (SFM) with a detector plate that converts the x-rays into a digital signal.
- e. **Magnetic resonance imaging (MRI).** The use of a uniform magnetic field and radio frequencies to study tissue and structure of the body. This procedure enables the visualization of biochemical activity of the cell in vivo without the use of ionizing radiation, radioisotopic substances or high-frequency sound.
- f. **Intraoperative magnetic resonance imaging.** An integrated surgery system which provides an MRI system in an operating room. The system allows for immediate evaluation of the degree to tumor resection while the patient is undergoing a surgical resection. Intraoperative MRI exists when a MRI (low-field or high-field) is placed in the operating theater and is used during surgical resection without moving the patient from the operating room to the diagnostic imaging suite.
- g. **Magnetoencephalography (MEG).** A noninvasive neurophysiological measurement tool used to study magnetic fields generated by neuronal activity of the brain. MEG provides direct information about the dynamics of evoked and spontaneous neural activity and its location in the brain. The primary uses of MEG include assisting surgeons in localizing the source of epilepsy, sensory mapping, and the study of brain function. When it is combined with structural imaging, it is known as *magnetic source imaging* (MSI).
- h. **Multi-slice spiral computed tomography (<64+slice CT).** A specialized computed tomography procedure that provides three-dimensional processing and allows narrower and multiple slices with increased spatial resolution and faster scanning times as compared to a regular computed tomography scan.
- i. **Multi-slice spiral computed tomography (64+ slice CT).** Involves the acquisition of volumetric tomographic x-ray absorption data expressed in Hounsfield units using multiple rows of detectors. 64+ systems reconstruct the equivalent of 64 or more slices to cover the imaged volume.
- j. **Positron emission tomography (PET).** A nuclear medicine imaging technology which uses radioactive (positron emitting) isotopes created in a cyclotron or generator and computers to produce composite pictures of the brain and heart at work. PET scanning produces sectional images depicting metabolic activity or blood flow rather than anatomy.
- k. **Positron emission tomography/CT (PET/CT).** Provides metabolic functional information for the monitoring of chemotherapy, radiotherapy and surgical planning.
- l. **Single photon emission computerized tomography (SPECT).** A nuclear medicine imaging technology that combines existing technology of gamma camera imaging with computed tomographic imaging technology to provide a clearer and more precise image.
- m. **Ultrasound.** The use of acoustic waves above the range of 20,000 cycles per second to visualize internal body structures.
87. **Radiology, therapeutic.** The branch of medicine concerned with radioactive substances and using various techniques of visualization, with the diagnosis and treatment of disease using any of the various sources of radiant energy. Services could include: megavoltage radiation therapy; radioactive implants; stereotactic radiosurgery; therapeutic radioisotope facility; X-ray radiation therapy.
 - a. **Image-guided radiation therapy (IGRT).** Automated system for image-guided radiation therapy that enables clinicians to obtain high-resolution x-ray images to pinpoint tumor sites, adjust patient positioning when necessary, and complete a treatment, all within the standard treatment time slot, allowing for more effective cancer treatments.
 - b. **Intensity-Modulated Radiation Therapy (IMRT).** A type of three-dimensional radiation therapy which improves treatment delivery by targeting a tumor in a way that is likely to decrease damage to normal tissues and allows for varying intensities.
 - c. **Proton beam therapy.** A form of radiation therapy which administers proton beams. While producing the same biologic effects as x-ray beams, the energy distribution of protons differs from conventional x-ray beams: proton beams can be more precisely focused in tissue volumes in a three-dimensional pattern, resulting in less surrounding tissue damage than conventional radiation therapy, permitting administration of higher doses.
 - d. **Shaped beam radiation system.** A precise, noninvasive treatment that involves targeted beams of radiation that mirror the exact size and shape of a tumor at a specific area to shrink or destroy cancerous cells. This procedure delivers a therapeutic dose of radiation that conforms precisely to the shape of the tumor, thus minimizing the risk to nearby tissues.
 - e. **Stereotactic radiosurgery.** A radiotherapy modality that delivers a high dosage of radiation to a discrete treatment area in as few as one treatment session. Includes Gamma Knife, Cyberknife, etc.
88. **Robotic surgery.** The use of mechanical guidance devices to remotely manipulate surgical instrumentation.
89. **Rural health clinic.** A clinic located in a rural, medically underserved area in the United States that has a separate reimbursement structure from the standard medical office under the Medicare and Medicaid programs.
90. **Sleep center.** Specially equipped and staffed center for the diagnosis and treatment of sleep disorders.
91. **Social work services.** Could include: organized services that are properly directed and sufficiently staffed by qualified individuals who provide assistance and counseling to patients and their families in dealing with social, emotional, and environmental problems associated with illness or disability, often in the context of financial or discharge planning coordination.
92. **Sports medicine.** Provision of diagnostic screening, assessment, clinical and rehabilitation services for the prevention and treatment of sports-related injuries.
93. **Support groups.** A hospital sponsored program that allows a group of individuals with common experiences or issues who meet periodically to share experiences, problems, and solutions in order to support each other.
94. **Swing bed services.** A hospital bed that can be used to provide either acute or long-term care depending on community or patient needs. To be eligible a hospital must have a Medicare provider agreement in place, have fewer than 100 beds, be located in a rural area, not have a 24-hour nursing service waiver in effect, have not been terminated from the program in the prior two years, and meet various service conditions.
95. **Teen outreach services.** A program focusing on the teenager which encourages an improved health status and a healthful lifestyle including physical, emotional, mental, social, spiritual and economic health through education, exercise, nutrition and health promotion.
96. **Tobacco treatment/cessation program.** Organized hospital services with the purpose of ending tobacco-use habits of patients addicted to tobacco/nicotine.
97. **Telehealth.** A broad variety of technologies and tactics to deliver virtual medical, public health, health education delivery and support services using telecommunications technologies. Telehealth is used more commonly as it describes the wide range of diagnosis and management, education, and other related fields of health care. This includes, but are not limited to: dentistry, counseling, physical and occupational therapy, home health, chronic disease monitoring and management, disaster management and consumer and professional education.
 - b. **eICU.** An electronic intensive care unit (eICU), also referred to as a tele-ICU, is a form of telemedicine that uses state of the art technology to provide an additional layer of critical care service. The goal of an eICU is to optimize clinical experience and facilitate 24-hour a day care by ICU caregivers.
 - c. **Stroke care.** Stroke telemedicine is a consultative modality that facilitates the care of patients with acute stroke by specialists at stroke centers.
 - d. **Psychiatric and addiction treatment.** Telepsychiatry can involve a range of services including psychiatric evaluations, therapy, patient education, and medication management.
 - e. **Remote patient monitoring.** The use of digital technologies to collect medical and other forms of health data from individuals in one location and electronically transmit the information securely to health care providers in a different location for assessment and recommendation.
98. **Transplant services.** The branch of medicine that transfers an organ or tissue from one person to another or from one body part to another, to replace a diseased structure or to restore function or to change appearance. Services could include: Bone marrow, heart, lung, kidney, intestine, or tissue transplant. Please include heart/lung or other multi-transplant surgeries in 'other'.

- 99. Transportation to health facilities. (non-emergency)** A long-term care support service designed to assist the mobility of the elderly. Some programs offer improved financial access by offering reduced rates and barrier-free buses or vans with ramps and lifts to assist the elderly or people with disabilities; others offer subsidies for public transport systems or operate mini-bus services exclusively for use by senior citizens.
- 100. Urgent care center.** A facility that provides care and treatment for problems that are not life threatening but require attention over the short term.
- 101. Violence Prevention**
- Workplace.** A violence prevention program with goals and objectives for preventing workplace violence against staff and patients.
 - Community.** An organized program that attempts to make a positive impact on the type(s) of violence a community is experiencing. For example, it can assist victims of violent crimes, e.g., rape, or incidents, e.g., bullying, to hospital or to community services to prevent further victimization or retaliation. A program that targets the underlying circumstances that contribute to violence such as poor housing, insufficient job training, and/or substance abuse through means such direct involvement and support, education, mentoring, anger management, crisis intervention and training programs would also qualify.
- 102. Virtual colonoscopy.** Noninvasive screening procedure used to visualize, analyze and detect cancerous or potentially cancerous polyps in the colon.
- 103. Volunteer services department.** An organized hospital department responsible for coordinating the services of volunteers working within the institution.
- 104. Women's health center/services.** An area set aside for coordinated education and treatment services specifically for and promoted to women as provided by this special unit. Services may or may not include obstetrics but include a range of services other than OB.
- 105. Wound management services.** Services for patients with chronic wounds and nonhealing wounds often resulting from diabetes, poor circulation, improper seating and immunocompromising conditions. The goals are to progress chronic wounds through stages of healing, reduce and eliminate infections, increase physical function to minimize complications from current wounds and prevent future chronic wounds. Wound management services are provided on an inpatient or outpatient basis, depending on the intensity of service needed.
- 106.** Integration ranges from co-located physical and behavioral health providers, with some screening and treatment planning, to fully integrated care where behavioral and physical health providers function as a true team in a shared practice.
- 107a-b. Physician arrangements.** An integrated healthcare delivery program implementing physician compensation and incentive systems for managed care services. Please report the number of physicians and ownership percentage for each arrangement.
- Independent practice association (IPA).** A legal entity that holds managed care contracts. The IPA then contracts with physicians, usually in solo practice, to provide care either on a fee-for-service or capitated basis. The purpose of an IPA is to assist solo physicians in obtaining managed care contracts.
 - Group practice without walls.** Hospital sponsors the formation of, or provides capital to physicians to establish, a "quasi" group to share administrative expenses while remaining independent practitioners.
 - Open physician-hospital organization (PHO).** A joint venture between the hospital and all members of the medical staff who wish to participate. The PHO can act as a unified agent in managed care contracting, own a managed care plan, own and operate ambulatory care centers or ancillary services projects, or provide administrative services to physician members.
 - Closed physician-hospital organization (PHO).** A PHO that restricts physician membership to those practitioners who meet criteria for cost effectiveness and/or high quality.
 - Management services organization (MSO).** A corporation, owned by the hospital or a physician/hospital joint venture, that provides management services to one or more medical group practices. The MSO purchases the tangible assets of the practices and leases them back as part of a full-service management agreement, under which the MSO employs all non-physician staff and provides all supplies/administrative systems for a fee.
 - Integrated salary model.** Physicians are salaried by the hospital or another entity of a health system to provide medical services for primary care and specialty care.
 - Equity model.** Allows established practitioners to become shareholders in a professional corporation in exchange for tangible and intangible assets of their existing practices.
 - Foundation.** A corporation, organized either as a hospital affiliate or subsidiary, which purchases both the tangible and intangible assets of one or more medical group practices. Physicians remain in a separate corporate entity but sign a professional services agreement with the foundation.
- 107c-e.** Report the number of physicians and specialty breakdown for physician practices wholly owned by the hospital
- 108.** Of all physician arrangements listed in question 107a. (1-9), indicate the total number of physicians (count each physician only once) that are engaged in an arrangement with your hospital that allows for joint contracting with payers or shared responsibility for financial risk or clinical performance between the hospital and physician (arrangement may be any type of ownership). *Joint contracting* does not include contracting between physicians participating in an independent practice.
- 109a-d. Joint venture.** A contractual arrangement between two or more parties forming an unincorporated business. The participants in the arrangement remain independent and separate outside of the venture's purpose.

SECTION D

INSURANCE AND ALTERNATIVE PAYMENT MODELS

Definitions

4. Insurance Products

- a. **Medicare Advantage.** Health Insurance program within Part C of Medicare. Medicare Advantage plans provide a managed health care plan (typically a health maintenance organization (HMO) but also often a preferred provider organization (PPO) or another type of managed care arrangement) that is paid based on a monthly capitated fee. This Part of Medicare provides beneficiaries an alternative to "Original Medicare" Parts A and B Medicare, which provides insurance for the same medical services but pays providers a fee for service (FFS) directly rather than through managed care plans.
- b. **Medicaid Managed Care.** Services in through an arrangement between a state Medicaid agency and managed care organizations (MCOs) that accept a set payment – "capitation" – for these services.
- c. **Health Insurance Marketplace.** Also called health exchanges, are organizations set up to facilitate the purchase of health insurance in each state in accordance with Patient Protection and Affordable Care Act. Marketplaces provide a set of government-regulated and standardized health care plans from which individuals may purchase health insurance policies eligible for federal subsidies.
- d. **Other Individual Market.** Health insurance coverage offered to individuals other than in connection with a group health plan.
- e. **Small Group.** A group health plan that covers employees of an employer that has less than 50 employees.
- f. **Large Group.** A group health plan that covers employees of an employer that has 51 or more employees.
8. **Self-administered health plan.** A health plan in which the employer assumes the financial risk for providing health care benefits to its employees. The employer may or may not also be responsible for claims processing and the provider network.
9. **Capitation.** An at-risk payment arrangement in which an organization receives a fixed prearranged payment and in turn guarantees to deliver or arrange all medically necessary care required by enrollees in the capitated plan. The fixed amount is specified within contractual agreements between the payer and the involved organization. The fixed payment amount is based on an actuarial assessment of the services required by enrollees and the costs of providing these services, recognizing enrollees' adjustment factors such as age, sex, and family size.
10. **Bundling.** Bundling is a payment mechanism whereby a provider entity receives a single payment for services provided across one or parts of the care continuum. For example, an entity might receive a single payment for the hospital and physician services provided as part of an inpatient stay or might receive a single payment for the post-acute care services involved in a single episode of care. The entity then has responsibility for compensating each of the individual providers involved in the episode of care.
12. **Shared risk payments.** A payment arrangement in which a hospital and a managed care organization share the risk of adverse claims experience. Methods for sharing risk could include: capitation with partial refunds or supplements if billed hospital charges or costs differ from capitated payments, and service or discharge-based payments with withholds and bonus payouts that depend on expenditure targets.
15. **Accountable Care Organization (ACO) Contract.** An ACO contract has two essential elements: (1) accountability for the total costs of care for the population of patients attributed to the primary care physicians in the organization; (2) financial incentives that link the magnitude of bonus payments to performance on quality measures (which could include technical quality, patient experience and/or health outcome measures) This will generally involve a contract where the payer establishes a target budget for one or more years for the total costs of care for the agreed-upon patient population, the payer tracks actual spending and performance on quality; and the provider receives bonus payments that could include a share of savings that are (or are not) contingent on meeting quality targets, with (or without) additional bonuses related to performance on those quality measures.
- 15c. **Traditional Medicare ACO Programs**
 - MSSP.** Medicare Shared Savings Program. For fee-for-service beneficiaries. The Shared Savings Program has different tracks that allow ACOs to select an arrangement that makes the most sense for their organization.
 - NextGen.** The Next Generation ACO Model is an initiative for ACOs that are experienced in coordinating care for populations of patients. It allows these provider groups to assume higher levels of financial risk and reward.
 - Comprehensive ESRD Care.** The model is designed to identify, test, and evaluate new ways to improve care for Medicare beneficiaries with End-Stage Renal Disease (ESRD.)
19. **Patient-Centered Medical Home.** The medical home concept refers to the provision of comprehensive primary care services that facilitates communication and shared decision-making between the patient, his/her primary care providers, other providers, and the patient's family.
20. **Clinically integrated network.** A clinically integrated network is a collection of healthcare providers, such as physicians, hospitals, and post-acute care treatment providers, that come together to improve patient care and reduce overall healthcare costs. Clinically integrated networks rely on evidence-based care guidelines to provide high-quality care across participating providers.

SECTION E

TOTAL FACILITY BEDS, UTILIZATION, FINANCES, AND STAFFING

Instructions and Definitions

For the purposes of this survey, a nursing home type unit/facility provides **long-term care for the elderly or other patients requiring chronic care** in a non-acute setting in any of the following categories: *Skilled nursing care *Intermediate care *Other long-term care (see page 21) The nursing home type unit/facility is to be owned and operated by the hospital. Only one legal entity may be vested with title to the physical property or operate under the authority of a duly executed lease of the physical property.

- a. **Total licensed beds.** Report the total number of beds authorized by the state licensing (certifying) agency.
- b. **Beds set up and staffed.** Report the number of beds regularly available (those set up and staffed for use) at the end of the reporting period. Report only operating beds, not constructed bed capacity. Include all bed facilities that are set up and staffed for use by inpatients that have no other bed facilities, such as pediatric bassinets, isolation units and quiet rooms. Exclude newborn bassinets and bed facilities for patients receiving special procedures for a portion of their stay and who have other bed facilities assigned to or reserved for them. Exclude, for example, labor room, post anesthesia, or postoperative recovery room beds, psychiatric holding beds, observation beds, and beds that are used only as holding facilities for patients prior to their transfer to another hospital.
- c. **Bassinets set up and staffed.** Report the number of normal newborn bassinets. Do not include neonatal intensive care or intermediate care bassinets. These should be reported on page 3, C6 and C7 and included in E1b. beds set up and staffed.
- d. **Births.** Total births should exclude fetal deaths.
- e. **Admissions.** Include the number of adult and pediatric admissions (exclude births). This figure should include all patients admitted during the reporting period, including neonatal and swing admissions.
- f. **Inpatient days.** Report the number of adult and pediatric days of care rendered during the entire reporting period. Do not include days of care rendered for normal infants born in the hospital, but do include those for their mothers. Include days of care for infants born in the hospital and transferred into a neonatal care unit. Also include swing bed inpatient days. An inpatient day of care (also commonly referred to as a patient day or a census day, or by some federal hospitals as an occupied bed day) is a period of service between the census-taking hours on two successive calendar days, the day of discharge being counted only when the patient was admitted the same day.
- g. **Emergency department visits.** Should reflect the number of visits to the emergency unit. Emergency outpatients can be admitted to the inpatient areas of the hospital, but they are still counted as emergency visits and subsequently as inpatient admissions.
- h. **Total outpatient visits.** A visit by a patient who is not lodged in the hospital while receiving medical, dental, or other services. Each appearance of an outpatient in each unit constitutes one visit regardless of the number of diagnostic and/or therapeutic treatments that the patient receives. Total outpatient visits should include all clinic visits, referred visits, observation services, outpatient surgeries (also reported on line E1k), home health service visits, and emergency department visits (also reported on line E1g).
Clinic visits should reflect total number of visits to each specialized medical unit that is responsible for the diagnosis and treatment of patients on an outpatient, nonemergency basis. (e.g., alcoholism, dental, gynecology.) Visits to the satellite clinics and primary group practices should be included if revenue is received by the hospital.
Referred visits should reflect total number of outpatient ancillary visits to each specialty unit of the hospital established for providing technical aid used in the diagnosis and treatment of patients. Examples of such units are diagnostic radiology, EKG, and pharmacy.
Observation services are those services furnished on a hospital's premises, including use of a bed and periodic monitoring by a hospital's nursing or other staff, which are reasonable and necessary to evaluate an outpatient's condition or determine the need for a possible admission to the hospital as an inpatient. Observation services usually do not exceed 24 hours; however, there is no hourly limit on the extent to which they may be used.
Home health service visits are visits by home health personnel to a patient's residence.
- i. **Inpatient surgical operations.** Count each patient undergoing surgery as one surgical operation regardless of the number of surgical procedures that were performed while the patient was in the operating or procedure room.
- j. **Operating room.** A unit/room of a hospital or other health care facility in which surgical procedures requiring anesthesia are performed
- k. **Outpatient surgical operations.** For outpatient surgical operations, please record operations performed on patients who do not remain in the hospital overnight. Include all operations whether performed in the inpatient operating rooms or in procedure rooms located in an outpatient facility. Include an endoscopy only when used as an operative tool and not when used for diagnosis alone. Count each patient undergoing surgery as one surgical operation regardless of the number of surgical procedures that were performed while the patient was in the operating or procedure room.
- 2a2. **Managed Care Medicare Discharges.** A discharge day where a Medicare Managed Care Plan is the source of payment.
- 2b2. **Managed Care Medicare Inpatient Days.** An inpatient day where a Medicare Managed Care Plan is the source of payment.
- 2c2. **Managed Care Medicaid Discharges.** A discharge day where a Medicaid Managed Care Plan is the source of payment.
- 2d2. **Managed Care Medicaid Inpatient Days.** An inpatient day where a Medicaid Managed Care Plan is the source of payment.
- 3a. **Net patient revenue.** Reported at the estimated net realizable amounts from patients, third-party payers, and others for services rendered, including estimated retroactive adjustments under reimbursement agreements with third-party payers. Retroactive adjustments are accrued on an estimated basis in the period the related services are rendered and adjusted in future periods, as final settlements are determined.
- 3b. **Tax appropriations.** A predetermined amount set aside by the government from its taxing authority to support the operation of the hospital.
- 3c. **Other operating revenue.** Revenue that arises from the normal day-to-day operations from services other than health care provided to patients. Includes sales and services to nonpatients, and revenue from miscellaneous sources (rental of hospital space, sale of cafeteria meals, gift shop sales). Also include operating gains in this category.
- 3d. **Nonoperating revenue.** Includes investment income, extraordinary gains and other nonoperating gains.
- 3e. **Total revenue.** Add net patient revenue, tax appropriations, other operating revenue and nonoperating revenue.
- 3f. **Payroll expenses.** Include payroll for all personnel including medical and dental residents/interns and trainees.
- 3g. **Employee benefits.** Includes social security, group insurance, retirement benefits, workman's compensation, unemployment insurance, etc.
- 3h. **Depreciation expense (for reporting period only).** Report only the depreciation expense applicable to the reporting period. The amount should also be included in accumulated depreciation (E8b).
- 3i. **Interest expense.** Report interest expense for the reporting period only.
- 3j. **Pharmacy Expense.** Includes the cost of drugs and pharmacy supplies requested to patient care departments and drugs charged to patients.
- 3k. **Supply expense.** The net cost of all tangible items that are expensed including freight, standard distribution cost, and sales and use tax minus rebates. This would exclude labor, labor-related expenses and services as well as some tangible items that are frequently provided as part of labor costs.
- 3l. **All other expenses.** Any total facility expenses not included in E3f-E3k.
- 3m. **Total expenses.** Add 3f-3l. Includes all payroll and non-payroll expenses as well as any nonoperating losses (including extraordinary losses). **Treat bad debt as a deduction from gross patient revenue and not as an expense.**

- 4a. **Total gross inpatient revenue.** The hospital's full-established rates (charges) for all services rendered to inpatients.
- 4b. **Total gross outpatient revenue.** The hospital's full-established rates (charges) for all services rendered to outpatients.
- 4c. **Total gross patient revenue.** Add total gross inpatient revenue and total gross outpatient revenue.
5. **Uncompensated care.** Care for which no payment is expected or no charge is made. It is the sum of bad debt and charity care absorbed by a hospital or other health care organization in providing medical care for patients who are uninsured or are unable to pay.
- 5a. **Bad debt.** The provision for actual or expected uncollectibles resulting from the extension of credit. Report as a deduction from gross revenue. For Question 6 (Revenue by payer), if you cannot break out your bad debt by payer, deduct the amount from self-pay.
- 5b. **Financial Assistance (Includes charity care).** Financial assistance and charity care refer to health services provided free of charge or at reduced rates to individuals who meet certain financial criteria. For purposes of this survey, charity care is measured on the basis of revenue forgone, at full-established rates.
- 5d. **Medicaid Provider Tax, Fee or Assessment.** Dollars paid as a result of a state law that authorizes collecting revenue from specified categories of providers. Federal matching funds may be received for the revenue collected from providers and some or all of the revenues may be returned directly or indirectly back to providers in the form of a Medicaid payment.
6. **REVENUE BY PAYER**
- 6a1. **Medicare.** Should agree with the Medicare utilization reported in questions E2a1-E2b2.
- 6a1a. **Fee for service patient revenue.** Include traditional Medicare fee-for-service.
- 6a1c. **Total.** Medicare revenue (add Medicare fee for service patient revenue and Medicare managed care revenue).
- 6a2. **Medicaid.** Should agree with Medicaid utilization reported in questions E2c1-E2d2.
- 6a2a. **Fee for service patient revenue.** Do not include Medicaid disproportionate share payments (DSH) or other Medicaid supplemental payments.
- 6a2c. **Medicaid Graduate Medical Education (GME) payments.** Payments for the cost of approved graduate medical education (GME) programs. Report in 'net' column only.
- 6a2d. **Medicaid disproportionate share payment (DSH).** DSH minus associated provider taxes or assessments. Report in 'Net' column only.
- 6a2e. **Medicaid supplemental payments.** Supplemental payments the Medicaid program pays the hospital that are NOT Medicaid DSH, minus associated provider taxes or assessments. Report in 'Net' column only.
- 6a2f. **Other Medicaid.** Any Medicaid payments such as delivery system reform incentive program (DSRIP) payments that are not included in lines 6a2a-e. Report in 'net' column only.
- 6e. **Medicaid Intergovernmental Transfers (IGT) or certified public expenditure program.** Exchange of public funds between different levels of government (e.g., county, city, or another state agency) to the state Medicaid agency.
7. **FINANCIAL PERFORMANCE – MARGIN**
- 7a. **Total Margin.** Total income over total revenue. Nonoperating income is included in revenue in the total margin.
- 7b. **Operating Margin.** Measure of profit per dollar of revenue calculated by dividing net operating income by operating revenues.
- 7c. **EBITDA Margin.** Earnings before interest, tax depreciation and amortization (EBITDA) divided by total revenue.
- 7d. **Medicare margin.** (Medicare revenue-Medicare expenses)/Medicare revenue.
 Medicare revenue = Patient revenue received from the Medicare program including traditional Medicare, Medicare Advantage, and any ACO, Bundled Payment, or other pilot program (net of disallowances)
 Medicare expenses = Cost of patient care for Medicare beneficiaries in traditional Medicare, Medicare Advantage and any ACO, Bundled Payment, or other pilot program. If actual costs cannot be obtained, use cost-to-charge ratios to estimate based on Medicare charges.
- 7e. **Medicaid margin.** (Medicaid revenue-Medicaid expenses)/Medicaid revenue.
 Medicaid revenue = Patient revenue received from the Medicaid program including traditional Medicaid, Medicaid Managed Care, and any ACO, Bundled Payment, or other pilot program (net of disallowances)
 Medicaid expenses = Cost of patient care for Medicaid beneficiaries in traditional Medicaid, Medicaid Managed Care and any ACO, Bundled Payment, or other pilot program. If actual costs cannot be obtained, use cost-to-charge ratios to estimate based on Medicaid charges.
8. **Fixed Assets.** Represent land and physical properties that are consumed or used in the creation of economic activity by the health care entity. The historical or acquisition costs are used in recording fixed assets. Net plant, property, and equipment represent the original costs of these items less accumulated depreciation and amortization.
- 8d. **Gross Square Footage.** Include all inpatient, outpatient, office, and support space used for or in support of your health care activities. Exclude exterior, roof, and garage space in the figure.
9. **Capital Expenses.** Expenses used to acquire assets, including buildings, remodeling projects, equipment, or property.
10. **Information Technology and Cybersecurity.**
- a. **IT Operating expense.** Exclude department depreciation and operating dollars paid against capital leases.
- b. **IT Capital expense.** Include IT capital expense for the current year only. Any capital expense that is carried forward from the previous year should be excluded from this figure. Include IT related capital included in the budget of other departments. (e.g., lab, radiology) if known or can be reasonably estimated. Include the total value of capital leases to be signed in the current year.
- c. **Number of Employed IT staff (in FTEs).** Number of full-time equivalent (FTE) staff employed in the IT department/organization and on the hospital payroll.
- d. **Total number of outsourced IT staff (in FTEs).** i.e., contracted staff.
- e. **Cybersecurity.** Measures taken to protect against the criminal or unauthorized use of electronic data.

STAFFING

11. **Full-Time Equivalent (FTE)** is the total number of hours worked (excluding all non-worked hours such as PTO, etc.) by all employees over the full 12-month reporting period, divided by the normal number of hours worked by a full-time employee for that same time period. For example, if your hospital considers a normal workweek for a full-time employee to be 40 hours, a total of 2,080 would be worked over a full year (52 weeks). If the total number of hours worked by all employees on the payroll is 208,000, then the number of full-time equivalents (FTE) is 100 (employees). The FTE calculation for a specific occupational category such as registered nurses is exactly the same. The calculation for each occupational category should be based on the number of hours worked by staff employed in that specific category.
- a-b. **Physicians and dentists.** Include only those physicians and dentists engaged in clinical practice and on the payroll. Those who hold administrative positions should be reported in all other personnel. (11n)
- e. **Other trainees.** A trainee is a person who has not completed the necessary requirements for certification or met the qualifications required for full salary under a related occupational category. Exclude medical and dental residents/interns who should be reported on line 11c-d.
- f. **Registered nurses.** Nurses who have graduated from approved schools of nursing and who are currently registered by the state. They are responsible for the nature and quality of all nursing care that patients receive. Do not include any registered nurses more appropriately reported in other occupational categories, such as facility administrators, and therefore listed under all other personnel. (11n)
- g. **Licensed practical (vocational) nurses.** Nurses who have graduated from an approved school of practical (vocational) nursing who work under the supervision of registered nurses and/or physicians.
- h. **Nursing assistive personnel.** Certified nursing assistant or equivalent unlicensed staff who assist registered nurses in providing patient care related services as assigned by and under the supervision of a registered nurse.
- i. **Radiology technicians.** Technical positions in imaging fields, including, but not limited to, radiology, sonography, nuclear medicine, radiation therapy, CT, MRI.

- j. **Laboratory technicians.** Professional and technical positions in all areas of the laboratory, including, but not limited to, histology, phlebotomy, microbiology, pathology, chemistry, etc.
- k. **Pharmacists, licensed.** Persons licensed within the state who are concerned with the preparation and distribution of medicinal products.
- i. **Pharmacy technicians.** Persons who assist the pharmacist with selected activities, including medication profile reviews for drug incompatibilities, typing labels and prescription packaging, handling of purchase records and inventory control.
- m. **Respiratory Therapists.** An allied health professional who specializes in scientific knowledge and theory of clinical problems of respiratory care. Duties include the collection and evaluation of patient data to determine an appropriate care plan, selection and assembly of equipment, conduction of therapeutic procedures, and modification of prescribed plans to achieve one or more specific objectives.
- n. **All other personnel.** This should include all other personnel not already accounted for in other categories.
- o. **Total facility personnel.** Add 11a-11n. Includes the total facility personnel - hospital plus nursing home type unit/facility personnel (for those hospitals that own and operate a nursing home type unit/facility.)
- p-q. **Nursing home type unit/facility personnel.** These lines should be filled out only by hospitals that own and operate a nursing home type unit/facility, where only one legal entity is vested with title to the physical property or operates under the authority of a duly executed lease of the physical property. If nursing home type unit/facility personnel are reported on the total facility personnel lines (11a-n), but cannot be broken out, please leave blank.
- r. **Direct patient care RN.** Registered nurses providing care directly to patients. Direct patient care responsibilities are patient-centered nursing activities carried out in the presence of the patient (such as admission, transfer/discharge, patient teaching, patient communication, treatments, counseling, and administration of medication.)
- 12. **Privileged Physicians.** Report the total number of physicians (by type) on the medical staff with privileges except those with courtesy, honorary and provisional privileges. Do not include residents or interns. Physicians that provide only non-clinical services (administrative services, medical director services, etc.) should be excluded.
 - Employed by your hospital.** Physicians that are either direct hospital employees or employees of a hospital subsidiary corporation.
 - Individual contract.** An independent physician under a formal contract to provide services at your hospital including at outpatient facilities, clinics and offices
 - Group contract.** A physician that is part of a group (group practice, faculty practice plan or medical foundation) under a formal contract to provide services at your hospital including at inpatient and outpatient facilities, clinics and offices.
 - Not employed or under contract.** Other physicians with privileges that have no employment or contractual relationship with the hospital to provide services.

The sum of the physicians reported in 12a-12g should equal the total number of privileged physicians in the hospital.

 - a. **Primary care.** A physician that provides primary care services including general practice, general internal medicine, family practice, general pediatrics and geriatrics.
 - b. **Obstetrics/gynecology.** A physician who provides medical and surgical treatment to pregnant women and to mothers following delivery. Also provides diagnostic and therapeutic services to women with diseases or disorders of the reproductive organs.
 - c. **Emergency medicine.** Physicians who provide care in the emergency department.
 - d. **Hospitalist.** Physicians whose primary professional focus is the care of hospitalized medical patients (through clinical, education, administrative and research activity).
 - e. **Intensivist.** A physician with special training to work with critically ill patients. Intensivists generally provided medical-surgical, cardiac, neonatal, pediatric and other types of intensive care.
 - f. **Radiologist/pathologist/anesthesiologist. Radiologist.** A physician who has specialized training in imaging, including but not limited to radiology, sonography, nuclear medicine, radiation therapy, CT, MRI. **Pathologist.** A physician who examines samples of body tissues for diagnostic purposes. **Anesthesiologist.** A physician who specializes in administering medications or other agents that prevent or relieve pain, especially during surgery.
 - g. **Other specialist.** Other physicians not included in the above categories that specialize in a specific type of medical care.
- 15. **Advanced Practice Registered Nurses/Physician Assistants.** Registered nurses with advanced didactic and clinical education, knowledge, skills, and scope of practice. **Physician assistant.** A healthcare professional licensed to practice medicine with supervision of a licensed physician. Includes: **Nurse practitioner.** A registered nurse with at least a master's degree in nursing and advanced education in primary care, capable of independent practice in a variety of settings. **Clinical nurse specialist (CNS).** A registered nurse who, through a formal graduate degree (masters or doctorate) CNS education program, has expertise in a specialty area of nursing practice. CNSs are clinical experts in the diagnosis and treatment of illness, and the delivery of evidence-based nursing interventions.
- 15c. **Primary care.** Medical services including general practice, general internal medicine, family practice, general pediatrics, obstetrics/gynecology, **Emergency department care.** The provision of unscheduled outpatient services to patients whose conditions require immediate care in the emergency department setting. **Other specialty care.** A clinic that provides specialized medical care beyond the scope of primary care. **Patient education.** Goals and objectives for the patient and/or family related to therapeutic regimens, medical procedures and self-care. **Case management.** A system of assessment, treatment planning, referral and follow-up that ensures the provision of comprehensive and continuous services and the coordination of payment and reimbursement for care. **Other.** Any type of care other than those listed above.
- 16. **Foreign-educated nurses.** Individuals who are foreign born and received basic nursing education in a foreign country. In general many of these nurses come to the US on employment-based visas which allow them to obtain a green card.

SECTION F. SUPPLEMENTAL INFORMATION DEFINITIONS

- 1a. **Satellite facility.** Services are available at a facility geographically remote from the hospital campus.
- 1b. Report the number of sites for outpatient services on the hospital campus and off-campus (satellite) sites owned and operated by the hospital.
 - 1. **Airway endoscopy.** Introduction of an instrument into the air passage while breathing spontaneously or under controlled ventilation. The airway is illuminated to look for any abnormalities under magnification and/or to perform a procedure in the upper or lower air passage.
 - 2. **Ambulatory surgery.** Operations performed on patients who do not stay overnight at the facility (admitted and discharged on the same day.) Include endoscopy only when used as an operative tool and not when used for diagnosis alone.
 - 3. **Blood product exchange.** Transfusion services or other blood product exchange procedures. Does not include general lab work.
 - 4. **Cardiac/pulmonary rehabilitation.** A medically supervised program to help heart patients recover quickly and improve their overall physical and mental functioning. The goal is to reduce risk of another cardiac event or to keep an already present heart condition from getting worse. Cardiac rehabilitation programs include: counseling to patients, an exercise program, helping patients modify risk factors such as smoking and high blood pressure, providing vocational guidance to enable the patient to return to work, supplying information on physical limitations and lending emotional support.
 - 5. **Diagnostic/screening test and related procedures.** A preliminary test or examination to detect the most characteristic signs of a disorder than may require further investigation. Examples include mammography, EKG, CBC, colonoscopy, bone density, diabetes, or cholesterol test.

6. **Drug administration and clinical oncology.** E.g., infusion therapies, chemotherapy.
7. **Ear, Nose, Throat (ENT).** Services for conditions of the ear, nose, throat, and related structures of the head and neck, such as sinus and nasal allergies, audiology, and speech/voice care.
8. **General surgery and related procedures.** Operations performed on patients who do not stay overnight at the facility (admitted and discharged on the same day.) Include endoscopy only when used as an operative tool and not when used for diagnosis alone.
9. **Gastrointestinal (GI).** Services for conditions of the GI tract, including both functional and structural gastrointestinal disorders.
10. **Gynecology.** Services and treatments dealing with the health of the female reproductive system. Services may or may not include obstetrics but include a range of services other than OB.
11. **Laboratory.** A medical or clinical laboratory where tests are usually done on clinical specimens in order to obtain information about the health of a patient as pertaining to diagnosis, treatment and prevention of disease.
12. **Major imaging.** Includes advanced breast imaging, MRI, PET, CT with contrast.
13. **Minor imaging.** Includes basic x-ray, nuclear medicine studies, CT without contrast.
14. **Musculoskeletal surgery.** Surgical procedures that aim to improve, manage or treat disorders, diseases, injuries or congenital conditions of the musculoskeletal system. The musculoskeletal system involves bones, joints, tendons, ligaments, and muscles, and is responsible for providing form and support, ensuring stability and allowing movement to the human body.
15. **Nervous system procedures.** Services dealing with the operative and nonoperative management of disorders to the central, peripheral and autonomic nervous systems.
16. **Ophthalmology.** Consulting, diagnostic and treatment services for all conditions affecting the eyes.
17. **Pathology.** The medical practice dedicated to the general study of disease and its processes as well as the specific diagnosis of disease. Pathology procedures are performed by a physician clinical pathologist. Services may be performed after outpatient surgical procedures.
18. **Primary care.** Provision of primary care services (e.g., general pediatric care, general internal medicine, family practice, gynecology) focusing on evaluating and diagnosing medical problems and providing medical treatment on an outpatient basis.
19. **Psychiatric care.** Medical care, including diagnosis and treatment, of psychiatric outpatients.
20. **Radiation oncology.** The controlled use of radiation to treat cancer either to cure, or to reduce pain and other symptoms caused by cancer.
21. **Rehabilitation.** Services providing medical, health-related, therapy, social, and/or vocational services to help people attain or retain maximum functional capacity.
22. **Skilled nursing.** Provision of non-acute medical and skilled nursing care services, therapy, and social services under the supervision of a registered nurse.
23. **Substance abuse/chemical dependency.** Provision of medical care and/or rehabilitation treatment services to outpatients for whom the primary diagnosis is alcoholism or other chemical dependency.
24. **Urgent care.** Provision of care and treatment for illnesses or injuries that require prompt attention but are typically not of such seriousness as to require the services of a traditional emergency room.
25. **Urology.** Services that focus on surgical and medical diseases of the urinary tract system.
26. **Vascular/endovascular/cardiovascular.** Medical services for preventing, diagnosing and managing arterial, venous and lymphatic disorders.
27. **Visits and related services.** An outpatient clinic visit. Includes both new and established patients; visits of all intensity.
2. **Group Purchasing Organization.** An organization whose primary function is to negotiate contracts for the purpose of purchasing for members of the group or has a central supply site for its members.
3. **Distributor.** An entity that typically does not manufacture most of its own products but purchases and re-sells these products. Such a business usually maintains an inventory of products for sales to hospitals and physician offices and others.
5. **Types of Partnerships:**
 - a. Health care providers outside your system (Include other hospitals health care systems, FQHCs, community clinics)
 - b. Local or state public health organizations (Include public health departments, institutes, etc.)
 - c. Local or state human/social service organizations (Include food, housing/rental assistance, energy assistance, transportation assistance)
 - d. Other local or state government (Include municipal, city or county government, including public safety and policy/legislative initiatives at a local level)
 - e. Non-profit organizations (Include National health associations, United Way, YMCA, Service leagues, healthy communities coalitions)
 - f. Faith-based organizations
 - g. Health insurance companies
 - h. Schools (Include childhood, primary and secondary schools and colleges/universities)
 - i. Local businesses or chambers of commerce
 - j. National businesses or chambers of commerce
 - k. Other (list)
- Scale of partnerships:**
 - Not involved. No current partnerships with this type of organization
 - Collaboration. Exchange information and share resources for a similar mission to enhance the capacity of the other partner
 - Formal Alliance. Formalized partnership (binding agreement) among multiple organizations with merged initiatives, common goals and metrics
6. **Patient and family advisory council.** Advisory council dedicated to the improvement of quality in patient and family care. The advisory council is comprised of past/present patients, family members, and hospital staff.
